

CITY SAND POINT  
WATER EXCELLENT

LABORATORY TEST SHOWS "HARDNESS" IS TEMPORARY.

PLANT TO IMPROVE AND  
ENLARGE NEW SYSTEM

Board of Public Works to Enlarge Pipes to Pumps and Maybe Install Aerator—River Seldom Used.

The water taken from the twelve "sand points," which the city has been serving the patrons of the municipal water plant the last five weeks, is an excellent water, both for municipal supply and commercial purposes after lime treatment, according to a chemical analysis made by the Kansas City testing laboratory. It is true that there is a "hardness" to the water, due to the mineral ingredients in it, but, according to Dr. Roy Cross, who made the test, the "hardness" is only temporary and can be easily removed.

It might not be generally known to the patrons, but they have drunk scarcely any 102 river water for the last five weeks, according to Superintendent J. H. Martin. For only twice within the last five weeks, has the management resorted to the river water to supply the demand.

The last two days a few have believed that the river water was again being used because the fluid was slightly roily. That has been caused, Superintendent Martin says, because an inspection, repair and flushing of the city water hydrants has been in progress the last two days.

In order to flush the hydrants it was necessary to roll the water therein by stirring up the accumulation of particles left in the water. After the flushing and inspection is finished, he says the water will be more clear than ever before.

**Plan to Improve System.**  
The board of public works also is arranging now to consider several improvements in the sand point system, at the next meeting, next Thursday night, July 1. After these improvements are made it is believed a plentiful supply of good water can be secured from the sand point wells without having to resort to the river water. This will be done largely by enlarging the pipes running from the pumps to the wells.

The city is now using twelve sand points, although one is not believed to be furnishing much water. No more sand points have been installed recently because of the rains and flood waters.

The samples of the city sand point water was sent recently to the Kansas City laboratory and also to the state geologist, Mr. Buehler at Rolla, but on account of Mr. Buehler's absence it was impossible to get a test made by the state at this time. One will be procured later.

**Here is Laboratory Finding.**  
The following report was made by Dr. Cross, formerly city chemist at Kansas City, relative to the sand point water:

Substance	Grains per Gallon
Mineral	.....
Silica	.....
Iron	.....
Alumina	.....
Calcium	.....
Magnesium	.....
Sodium	.....
Bicarbonates	.....
Chlorides	.....

Sulphates ..... 48  
Nitrates ..... 90

Total Solids ..... 22.23

Mineral Salts ..... 2.14

Iron Bicarbonate ..... 16.79

Magnesium Bicarbonate ..... 4.60

Sodium Bicarbonate ..... 1.04

Sodium Sulphate ..... 3.14

Sodium Chloride ..... .67

Alumina ..... .15

Silica ..... .81

Total Salts ..... 16.91

Hardness ..... 10.35

Due to Lime Salts ..... 10.35

Due to Magnesium Salts ..... 1.20

Due to Iron ..... 1.20

Total Hardness ..... 14.69

Temporary hardness ..... 14.69

Permanent hardness ..... .00

Treatment for hardness—Two pounds of lime per 1,000 gallons of water.

Remarks—The characteristic ingredients of this water are the bicarbonates of iron, lime and magnesia. For removing the iron aeration will cause its separation. After the lime treatment, this water will be excellent for both commercial purposes and for municipal supply.

Respectfully submitted,

Kansas City Testing Laboratory,  
Per Roy Cross.

The city has never used the lime treatment yet in the sand point water but it has used the aeration method by a crude arrangement. It is planned to get an aeration system at the plant. The lime treatment also will be used.

## MILITIA IN NEW HOME TODAY

Company F Moving Lockers in Hall, North Side of Square—Banquet Planned Monday.

Company F and the Fourth Regiment band are moving their quarters from the second floor of the Tribune building to the room at 116 East Fourth street, today, preparatory to occupying the new armory after this week. A banquet in celebration of the new home is being arranged for Monday night, when a smoker and eats will be furnished to members of both the company and the band.

Speeches and toasts also will probably be given during and after the dinner.

The new hall will give a depth of 132 feet and a width of twenty feet, so that ample room for drilling is furnished. The rear of the hall will be partitioned into equipment and dress rooms, however, which will cut off the drill space slightly.

The hall has been improved with a steel ceiling, steam heat provided and the room repaired. The company will pay \$40 a month and the band \$10 a month rental for the new hall.

## OLD RESIDENT A SUICIDE.

Charles Freemyer, Near Sheridan, Killed Self With Shotgun—Resident Since 1857.

Charles Freemyer, 84 years old, who has lived on a farm near Sheridan, Worth county, since 1850, committed suicide by shooting himself with a shotgun at his home Thursday. Freemyer had placed the muzzle of the gun in his mouth and supposedly fired it by pressing his foot against the trigger.

Freemyer had been a resident of Worth county since 1857.

**Turtles in City Streets.**  
The latest story of streets of Maryville being converted into aquariums comes from Mrs. John Snapp, 408 East Seventh street, who reports that a big water turtle has made its home in a pool in the ditch at the side of the street in front of the Snapp residence.

Those attending from Maryville who returned last night were the Rev. J. H. Hubbard, pastor of the Buchanan Street Methodist church; Miss Iva Hubbard and Miss Nina Evans, delegates. I. B. Williams returned Thursday.

Others from over the county who were in attendance and also assisted in the program were: Rev. M. Dewitt, Skidmore; Miss Donna LeMar, Elmo; Miss Rose Campbell, Elmo; Mrs. E. C. Starin, Guilford; Miss Mattie Bishop, Ravenwood.

**Drunk is Fined \$5.**  
Hugh Brady was fined \$5 and costs of \$6.10 in police court yesterday afternoon on his plea of guilty to a charge of drunkenness.

## FIGHT IS INTENSE

SLAVS AND TEUTONS IN BITTER BATTLE ALONG DNEISTER.

Force Austro-Germans to Retreat—Italian Attacks Are Repulsed—Kaiser to Strengthen Forces.

## RUSS CLAIMS VICTORY

London, June 26.—Divergent claims leave doubt whether the Russians or the Teutonic allies have the upper hand in the desperate battle being waged along the Dniester river in Galicia. Between Zuvanna and Halez the crucial point in this front, a conflict of great intensity is being carried on and here both sides claim success. None of the reports, however, indicate that any decisive advantage has been gained.

The Russians assert that they are hurrying up reinforcements and they have forced the Teutons to retreat across the river in this sector. The Germans admit a reverse here, but their Austrian allies, in their latest communication, declare that counter attacks by the Russians on the north bank of the Dniester have been repulsed and that the attack of the Austrians is still in progress.

The latest French official statement tells of artillery duels at different points along the western front, but chronicles no decisive engagement. Both the French and the Germans claim successes in the field of operations.

**Italian Attacks Repulsed.**  
In the Italian war theater artillery combats are continuing. The Austrians claim to have repulsed two attacks by the Italians on the frontier coast district east of Robini. News dispatches state that the Italian forces are advancing both from the east along the Fella valley and from the south through Predil pass toward Tarvis, although because of the difficulties of mountain warfare this progress is slow. General Cadorna, the Italian commander in chief, apparently plans to attempt an invasion of Austria threatening the right wing of the Austrian army having headquarters at Laibach and thus obtaining relief from the pressure of the Austrian forces massed along the Tolmino-Gorizia-Trieste front.

The Germans, according to an authoritative military source, will be able to place eighteen more army corps in the field by the end of July. These, it is said, will be made up mostly of the second category of the landsturm men who have never performed military service but who at present are in training.

**INDEX FINGER IS SEVERED.**  
Wesley Howland Has Another Gashed in Saw, When Hand Is Drawn In.

Wesley P. Howland, 522 West Third street, had the tip of the index finger of his left hand severed and the large finger cut to the bone at 3:30 o'clock yesterday afternoon, when his hand was drawn into a saw at the carpenter shop of Foster & Hahn. He was holding the end of a board down with the hand when the accident happened.

**EPWORTHIAN MEET ENDS.**  
South Methodist Young People Return From Savannah—At St. Joseph Next.

The three days annual district meeting of the Epworth League of the South Methodist church of the St. Joseph district closed at Savannah yesterday afternoon. Local delegates returned last night. The next annual meeting of the Epworthians is to be held in the Gooding South Methodist church at St. Joseph.

Those attending from Maryville who returned last night were the Rev. J. H. Hubbard, pastor of the Buchanan Street Methodist church; Miss Iva Hubbard and Miss Nina Evans, delegates. I. B. Williams returned Thursday.

Others from over the county who were in attendance and also assisted in the program were: Rev. M. Dewitt, Skidmore; Miss Donna LeMar, Elmo; Miss Rose Campbell, Elmo; Mrs. E. C. Starin, Guilford; Miss Mattie Bishop, Ravenwood.

## HE SHOWED SKILL; DROWNS

Albert Pearson, Demented, Run Away, Buried in Kentucky, Father Here Learns.

That the young man who drowned June 19 in the Ohio river was Albert Pearson, son of Mr. and Mrs. M. H. Pearson, who escaped from the state colony for feeble minded and epileptics at Marshall, is entirely proven. The body now lies buried in Kentucky, where it probably will be allowed to remain.

A letter received today by Mr. Pearson from R. P. C. Wilson, superintendent of the Missouri Colony for Feeble Minded and Epileptics at Marshall, contains the following:

"On Saturday afternoon, June 19, a young man apparently 19 or 20 years of age, went out in a skiff with two colored men in the Ohio river at Henderson, Ky., where he removed his clothing, and in order to show his ability as a swimmer, he dived off the boat, his object being to swim to the shore. The water being cold, he evidently was attacked by cramps, as he went down despite the efforts of the men in the boat to rescue him.

"In his clothing were found papers, note books, etc., which led the authorities writing me concerning the incident, and the description, etc., furnished me led me to believe that it was your son, Albert. I at once sent our steward to investigate the matter, and his investigation has convinced me beyond any doubt that the boy who met his death in this manner was your son, who escaped from this institution a few days ago.

"The body was recovered Monday evening, June 21, at 2 p. m., floating in the river some 12 miles below where he was drowned. The coroner of the county at once held an inquest, the verdict being accidental drowning. The body, owing to its condition, was buried at once at McDonald's Landing, Ky., by the undertaker at Henderson."

**PLAY DELIGHTS CROWD.**  
Colonial Entertainment at First Christian Church Given With Good Success.

The children who presented "A Bride of Colonial Days" at the First Christian church last night pleased a big crowd of people who witnessed the entertainment. The play, which was given entirely in colonial costumes and scenery, was perfectly rendered and given with a snap and movement which took away any amateurishness. The presentation was the story of the wedding and nuptial reception of George Washington and his bride, and the children taking the character parts acted them with unusual grace and aptitude.

The entertainment was staged under the auspices of the Ladies' Aid society of the church and was financially successful for the patronesses. Mr. and Mrs. C. D. Brown of St. Joseph trained the children in their parts. One hundred youngsters participated.

**NOTED MINISTER HERE.**  
Dr. W. S. Holt of Philadelphia Will Speak at Presbyterian Church Tomorrow.

Dr. William S. Holt, D. D., LL. D., of Philadelphia, will be in Maryville tomorrow and will preach tomorrow morning at the First Presbyterian church. Dr. Holt is secretary of the board of ministerial relief of the Presbyterian church and is one of the most noted workers of the denomination. The pastor, Rev. S. D. Harkness, will preach at the evening service.

Miss Lillian Lindholm of Ottawa, Ill., who has been visiting in the city, will sing at both services tomorrow. At the morning hour she will sing the aria, "O Rest in the Lord," from "Elijah," and at the evening service she will sing "My Redeemer and My Lord," by Dudley Buck.

**Miss Farmer to Return.**  
Miss Lois Farmer, who has been attending Oberlin college, Oberlin, O., will arrive home Monday morning to spend the summer with her parents, Mr. and Mrs. S. E. Farmer. Miss Farmer has been spending the past week in Chicago, the guest of Mr. and Mrs. George Richard Eaton, former residents of Maryville.

Delivered in Maryville by carrier at 5 cents per week.

### Largest Circulation in Nodaway County

There will be no famine in Germany now. Lemberg has been recaptured.

The Russians were short of arms but fortunately their legs were in good working order.

William J. Bryan announces that he will return to Nebraska and continue his voting residence there. Some are disposed to see in this his candidacy for the United States Senate.

Maryville is dressing up. New suits are in evidence daily and the town is showing signs of general prosperity. There is prosperity for the lucky purchasers and prosperity for the merchants who garner in the cash.

The ladies of the civic federation have declared war on weeds. This is a righteous war and we hope that their ranks may grow rather than diminish and that they may never lack for arms or ammunition.

It is to be regretted that the proposed paving has been delayed by defects in the ordinances etc., but it is well to make haste slowly some times and, like Davy Crockett, be sure you are right. Practice makes perfect and perseverance will win in the end.

No greater convenience has ever been invented than the telephone but it is sometimes abused. Friends, for instance, of employees of a business concern should remember that there is rarely any time for visiting during business hours and should not call unless they have important business. Frequent calls of employees take some one away from his work a great part of the time to answer the phone. It demoralizes the business by taking workmen away at busy times and may keep several others waiting until one returns and disturbs the work of others who are not interested in the conversation. Employees are often compelled to walk several hundred feet per day to answer unimportant calls and an injustice is thus done them. This loss of time and disturbance amounts in the course of a year not only to hours but to days and weeks and large manufacturing concerns are compelled to refuse such calls altogether. Of course friends do not realize these accumulative results but calls upon friends in business concerns should be made on important business only or after closing hours.

### A BIG BALANCE AHEAD.

The trade balances in favor of the United States for the fiscal year now nearing an end, will amount to the enormous sum of one billion dollars. When the war in Europe began there was a trade balance against the United States of \$300,000,000. After squaring this and the \$400,000,000 or more needed to liquidate interest on securities held abroad, ocean freight bills and the expenditures of American tourists, etc., there will still be due the United States about \$300,000,000 net. But with the incoming of the next fiscal year all these obligations will be wiped out and business will begin with a clean slate so far as the United States is concerned. There will be no balance hanging over against us, there will be no vast expenditures abroad by American travelers, and there will not be such heavy remittances abroad by our alien population.

In addition to these facts, if the war continues our business will be vastly increased over the present year. It has only recently gotten into full swing, and it should reach the stupendous sum of a billion and a half, and

possibly two billion dollars, with little or no offsets.

The question then will be how to take care of the balances. It cannot be handed to us in gold, because Europe hasn't the gold. It can't be paid in American securities, because these belong to individuals and not to governments, and with the securities of the countries at war of more or less doubtful value, private investors will not make any grand rush to part with the sound securities of the only great country not involved in the war. It then becomes a question of trading our products for foreign securities mostly. The securities of the smaller countries of the world held by the countries of Europe and their own securities. Thus the United States becomes what England has been, a great creditor nation, all in the course of a couple of years.

One effect of the war has been to demonstrate and test our ability to quickly turn out enormous quantities of war supplies. It is estimated that already the shipments of war munitions to Europe from this country have amounted to one and a half billions of dollars, and orders are being increased and the factories now in full swing are working busier than ever. Last fall Russia ordered great quantities of supplies which are just now beginning to go forward, not soon enough to save her from her recent defeat. Since Archangel has been cleared of ice a tremendous amount of finished products and a like amount of raw materials for Russia's own factories have been loaded. Ten big steamers have cleared at New York for this one western outlet of Russia within the past week, and a great deal has started from San Francisco to go via the Vladivostok route. An army officer declares that, in the present development of supply factories, if this country should become involved in any way, the United States could turn out more munitions of war than all the balance of the world combined.

### CHINESE ORATOR TO COME

Ng Poon Chew Will Tell Chautauqua Audience August 10 of China and Her Problems.

Ng Poon Chew, the great Chinese scholar, author and statesman, is coming to Chautauqua to tell the people about "China and Her Problems." No country in modern times has so surprised the world as China did in coming out of her ancient form of government and transforming herself into a republic. This great change, in view of her 400,000,000 population, has

certainly loaded her leading men with problems a hundredfold more difficult of solution than the ordinary person has ever dreamed of.

Ng Poon Chew is a great orator, speaks the English language fluently and has a message of strong educational value as well as of gripping interest. His visit to the Chautauqua will be an event of importance and will create a great deal of enthusiasm and interest.

### Maral Teacher in Town.

Miss Dora Smith of Wilcox was in Maryville today. She will teach at the Wilcox school next term. She taught the Star of the West school last term.

### College Head Moves.

Prof. A. W. Cooper, head of the Maryville Business college, and his family have moved this week to the Mergen cottage on West Seventh street.

### Mrs. Alek Here.

Mrs. George Alek, Sr., of Burlington Junction came to Maryville yesterday to visit her sons, John, George, Jr., and Clun Alek, and families.

In Japan private individuals own only the surface of the land and its products. All mineral deposits beneath the surface are the property of the

### COBURNS COME HERE MONDAY

Will Give Three Shows at the State Normal School—"The Yellow Jacket" Monday Evening.

The Coburn Players, which will appear at the State Normal School, and will present "The Yellow Jacket" Monday evening, "The Imaginary Sick Man" Tuesday matinee, and "A Midsummer Night's Dream" Tuesday evening, next week, will be well worth attending. It will be one of the very best shows that has been in Maryville, and people should take advantage of the opportunity to attend.

Wherever the Coburn Players have been they have been well received and have pleased the large audiences. The St. Louis Republic of June 16, in speaking of the Coburn Players, says:

Charles Douville Coburn of the Coburn Players will talk today at the City club on the function of the theater. We do not know what Mr. Coburn will say, but of one thing it is easy to be sure: No speech, however well considered and informing, could possibly set forth the true function of the theater as saliently and convincingly as has Mr. Coburn's work on the stage during the past few years as actor and as manager.

The function of the theater in a country which has somehow lost the way dramatically and finds its stage in a backwater just at the time when the musical arts are growing in popular appeal and advancing in popular comprehension will never be worked out satisfactorily except as it is made to reveal itself in practice; and for this we must have the spirit of self-devotion and the sheer love of great plays and great playing for their own sake that characterize the Coburn Players.

It is a pleasure to speak a word of recognition of a company of artists who have labored so unostentatiously and so successfully. Much of their work has been done in educational centers where the audiences were made up of students, with their sisters and their cousins and their aunts, not to speak of their male relatives. These young people, just at the impressionable age, and their older relatives and friends, representative of the bone and sinew of American citizenship—people of clean lives, workers without either poverty or riches—have looked and listened their fill with their pleasure unmediated by theories. They have sat under the open sky looking toward a screen of leafy branches at the rear of an improvised stage and have seen the life of Venice and Verona go by, the castle of Macbeth arise, the seacoast of Bohemia loom through the mist. They have seen players who played Shakespeare as a Hungarian orchestra plays stringed instruments—with an intelligence set on fire by enthusiasm. They have found Shakespeare "fun"—and until this stage comes you have no art, notwithstanding the dreary conscientiousness of the people who get out annotated editions.

It was one of the sayings of the old days of sacrifices on altars that without the shedding of blood there was no remission—there must be a living victim. Down under the crudities and the blunders of that day there was a profound truth. The only way in which faulty things may be made worthy and mistakes and wrongs undone, whether in religion, education, statesmanship or art, is by the pouring out of the essential strength of human lives in the kind of service that gives everything for the end desired.

If we can only have enough players playing the great dramatic masterpieces just because they cannot be altogether happy doing anything else, and going to the people wherever the people gather together with God's sky over them and God's trees about them, we can turn the world into a Forest of Arden—and find our dukedoms there.

### Baptist Church Service for Sunday.

Men's Organized Bible class and primary department at usual hour and place. Remainder of Sunday school and preaching service, morning and evening. Usual hours at the court house. 25-26

### Normal Students Go Home.

Miss Esther Stoner, Miss Ethel Stoner and Miss Cleora Dowis of Sheridan, who are attending the summer term at the Normal, returned home today for the week end.

Burlington Junction will entertain you free Saturday, July 3.—Adv.

The longest bascule bridge in the world crosses the United States ship canal at Sault Ste. Marie, Mich. It is 365 feet in length between centers of front piers, or 336 feet from trunnion to trunnion.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; also cases of deafness are caused by Catarrh, which is inflaming the mucous membrane of the middle ear surface. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Ely's Catarrh Cure. Send for circular, free.

J. J. CHERRY & CO., Toledo, O. Sold by Druggists. Write for the constitution.

## RAVENWOOD ORCHESTRA IN BIG DEMAND

Members—From left to right, standing, Norvil Lyle, Miss Fay Bishop, Miss Nellie Bentley, Tenney Tebow, Miss Clara Bond, Frank Tebow. Seated, left to right, H. T. McMullen and Theodore Brantford.

It is not often that a band or an orchestra in a small town "gets anywhere" when it comes to fame or laurels, but an exception is found in the Ravenwood orchestra, composed of ten bright young men and women of that Nodaway county town.

For they are not only in demand to give concerts, or play for dances and

entertainments of various kinds at home, but also are called on for music by other towns in the county and other counties as well.

What is more, a young woman manages it. She is Miss Fay Bishop, pianist for the orchestra.

The Ravenwood orchestra furnished music for the district Epworth league convention at Savannah yesterday, and last night gave a recital in the Hocker

hall at Guilford. The orchestra has been organized several years.

The members are Miss Fay Bishop, pianist; Tenney Tebow, Miss Clara Bond and Miss Wavie Ralston, violin; Henry McMullen, cornet; Frank Tebow, trombone; Rex Bond, drum; Miss Nellie Bentley, cello; Theodore Brantford, cornet; Norvil Lyle, flute. Miss Ralston and Rex Bond are not shown in the accompanying picture.

### NEWS OF SOCIETY AND WOMEN'S CLUBS

#### Mrs. Shipp's Hostess.

The Herron Homemaking Circle met Wednesday afternoon at the home of Mrs. N. O. Shipp, living northwest of the city. The afternoon was spent in quilt piecing and in planning for the annual Fourth of July celebration which will be held this year at the home of Mr. and Mrs. J. C. F. Taylor. A dainty luncheon of pineapple ice and cakes followed the working hour. Those present were Mrs. R. Neidel, Mrs. S. E. Fisher, Mrs. J. C. Taylor, Mrs. Chance Evans, Mrs. Ed Valgammott, Mrs. Porter, Mrs. I. E. Tebow, Mrs. A. E. Cockayne, Mrs. Virgil Guthrie, Miss Esther Neidel, Miss Nellie Fisher. Special guests of the afternoon were Mrs. Fred Miller and Miss Mae and Helen Shipp.

#### SUED FOR \$450 ON ACCOUNT.

Maryville Advertising Company Didn't Pay for Folding Machine, Dealer Charges.

Suit for \$450 and interest from last September was filed in circuit court here today by Barnhart Brothers & Spindler of Kansas City against W. H. Gilbert of the Maryville Advertising company. The plaintiff says Gilbert bought a folding machine from the firm last August at \$450, but has never paid anything.

#### LIVE STOCK MARKETS.

Sheep—500.

Italy has completed twenty new submarines since the war broke out, and has added greatly to her aeroplanes and dirigibles.

In Mexico there is a 150-foot bridge that is composed entirely of mahogany, worth, at the present price of the wood, almost \$2,000,000.

Ceylon has taken a census of her coconut trees and finds she has 60,000,000.

In the Philippines motion pictures are being used to teach hygiene.

Argentina has a new paving material made of ground rock and tar.

#### What is the cause of carbon?

Carbon deposit is caused by the carbon in the oil or gasoline being set free by the heat of combustion. If the mixture is too rich there will not be enough air for combustion of all the carbon in the gasoline, and therefore after the explosion takes place some carbon in the form of a very fine powder will remain. This is caught by the oil on the walls of the combustion chamber, and the heat gums the oil, holding the carbon until the final result is a hard mass of carbon held together by a tough, cement-like gummed oil. In the same way, if too much oil is fed to the motor, an excess reaches the combustion chamber, and the heat burns part of it, but leaves some of the carbon, which remains on the wall until removed.

## Sunday Services at Local Churches

Buchanan Street Methodist.

John H. Hubbard, pastor. We hope to have a large attendance tomorrow at all our services. All at Sunday school on time is our motto.

The regular preaching service at 11 o'clock a. m. and 8 o'clock p. m.

Epworth League at 7 o'clock p. m. Special music at all services.

Everyone cordially invited to attend all services.

First Church of Christ, Scientist.

206 South Main. Morning worship at 11 o'clock. Subject of lesson sermon, "Christian Science." No Sunday night service.

Midweek prayer service at 8 o'clock Wednesday night.

Reading room in Michau building open each afternoon from 2 till 5 o'clock. Everyone welcome to the services and the use of the reading room.

#### First Methodist.

Gilbert S. Cox, pastor. Sunday school at 9:30 o'clock.

Morning worship at 10:45 o'clock, with sermon by pastor. Subject, "The Hills of God." Choir anthem, "The Radiant Morn," by Woodward. Solo, "The Hills of God."

Evening worship at 8 o'clock. Subject of pastor's sermon, "The Restoration of Peace." Choir anthem, "Jesus, Meek and Gentle." Quartet, "God Calling Yet," Brockett.

#### First Presbyterian.

Samuel D. Harkness, pastor. Sunday school at 9:45 o'clock.

Morning worship at 11 o'clock with sermon by Dr. W. S. Holt of Philadelphia, associate secretary of the board of ministerial relief.

Evening worship at 8 o'clock with sermon by pastor. Subject, "The International Christ."

Meeting of Young People's club at 7 o'clock. The hour will be a missionary meeting on the subject "China," and it will be led by Martin Lewis, Jr. Miss Lillian Lindholm will sing at both the morning and evening service.

#### First Christian.

Robert L. Finch, minister.

Morning worship begins at 9:30 with the church in religious training and Bible study. Ennis R. Utter, superintendent, will be in charge. After communion at 10:45 the minister will preach on the subject "The Fire Test." Special music by the choir under direction of Prof. Harry Burnell Schuler, with Miss Ola Smith at the organ. Let us make this service splendid by the earnest and enthusiastic co-operation of all.

Evening sermon subject, "A Catholic Baptism," the last of the series on "Elements of the Holy Catholic Church." An earnest invitation is extended to all students of the trend of modern church life to hear this sermon. Service begins promptly at 8 p. m.

#### Guests at Martin Home.

Mrs. B. C. Huffine of Des Moines, Ia., will arrive in Maryville tonight to visit her mother, Mrs. M. A. Martin. Another daughter, Mrs. C. Edward Lippman of St. Louis, and her two young children, will come to Maryville the first of next week for a visit at the Martin home.

#### Know the Trouble.

The aim of the thoughtful physician—one who endeavors to find every possible help in the treatment of the sick will be to make sure he KNOWS THE TROUBLE and then to use the treatment to overcome it.

A proper and positive diagnosis is the principal thing for a physician to know. He must not grope in the dark. If he expects to succeed in his efforts, Dr. Prettyman, the specialist in Chronic and Nervous Diseases, claims that his experience is such that he can find out the exact trouble and knowing the Linville hotel, Monday, June 28, that, can tell what can be done.

#### Guests at Farrar Home.

Mrs. W. B. Carter and son, Harlan, came to Maryville yesterday from Lawrence, Kan., to visit Mrs. Carter's mother, Mrs. M. E. Farrar, and family.

Empire Theatre, WEDNESDAY, 30 JUNE...

## SOCIETY AND CLUBLAND

KATE SCHENCK  
Phone—Office 42 Home 938

### Plenic Supper.

A picnic supper given last night at Normal park included in its party Miss Marjorie Wiffley, Miss Lucile Airy and her guest, Miss Lillian Lindholm of Ottawa, Ill.; Miss Dale Hoffman and Miss Glen Hotchkiss.

### Guests at Baker Home.

The Rev. and Mrs. Gilbert S. Cox and the former's brother, Mr. Ernest L. Cox of Kansas City, who is their guest a few days, were entertained at a supper given last night by Mr. and Mrs. George B. Baker.

### Entertains Homemakers.

Mrs. Frank Mathis entertained the members of the Homemakers class with a Kensington and luncheon yesterday afternoon at her home, on North Walnut street. Mrs. A. E. Pastorius delighted the guests with several voice numbers. Twenty-five were entertained.

### Mrs. Glenn to Visit Here.

Mrs. J. C. Glenn of Kansas City arrived in Maryville at noon to visit her daughter, Mrs. A. Frederick Harvey, and Mr. Harvey, at their home, 704 North Main street. Mrs. Glenn is a former resident of this city and enjoys the acquaintance of a wide circle of friends here.

### On Western Tour.

Mrs. Fred P. Robinson and daughter, Virginia, will depart tomorrow morning on a six weeks western trip. The most of their visit will be made at Los Angeles, Cal., with Mrs. Robinson's sister, Mrs. Fletcher Irwin, and Mr. Irwin. They will stop at various places of interest both going and returning. Mrs. Robinson will also attend the international convention of Christian churches, which will meet at Los Angeles during the latter part of July.

### Maryville Girls Sightseeing.

Miss Donna Sisson and Miss Lulu Todd of this city, who are at present sight seeing in New York City, had the pleasure of witnessing the launching of the superdreadnaught, Arizona, from the ways at the New York navy yards Saturday, June 19. The ceremony which was attended by thousands of persons was of unusual interest to the Maryville girls as it

## Deafness

Are You Deaf or Hard of Hearing?

Now is the ideal time to treat deafness. Ninety per cent of all deafness is caused by catarrh. Dr. Edwards of St. Louis has discovered and perfected an operation for catarrhal deafness which is remarkable for its many cures. There is no cutting and it is painless. I am now using this operation in Maryville with remarkable success. Every patient treated by me has been cured or greatly benefited.

was the first experience of the kind for them. A feature of the christening of the battle ship, which was sponsored by Miss Esther Ross of Prescott, Ariz., was that both wine and water were used. In accordance with the traditions of the navy, a bottle of wine was smashed on the bows of the ship and at the same time a carboy of water, the first that spilled over the famous Roosevelt dam, was dashed over the sides of the vessel.

### Sorority to Picnic.

The members of the Sigma Delta Chi sorority will enjoy a motor party and picnic supper at Elm Grove, northwest of the city, tonight. Eighteen members will be in the party.

### Motor Party to Rock Port.

Mr. and Mrs. Edward Dowling Holmes and their guests, Misses Harriett and Winona Howard of Lucerne, Mo., and Mr. J. Colton of Kansas City, will motor to Rock Port tomorrow, where they will spend the day visiting friends.

### Camp Fire Supper.

Miss Nelle Hudson, Miss Mabel Todd, Harvey McClary, James Todd and Roy J. Curfman will drive to Bolckow tonight in the Curfman car to attend a camp fire supper given by Misses Myrtle and Gertrude Floyd. The entire party will include about twenty guests.

### Mrs. Garrett Entertains Society.

The June meeting of the Women's Home Missionary society of the First Methodist church was held yesterday afternoon at the home of Mrs. Oliver Garrett. A business meeting preceded the program. At this time the reports for the past year's work were given and officers for the coming year chosen. The offices of president and vice president were left vacant until the July meeting. The others chosen were Miss Mary Q. Evans, recording secretary; Mrs. L. L. Maier, corresponding secretary; Miss Ethel Embree, treasurer, and Mrs. Guy Haller, secretary of supplies. A gift of over \$200 was made this past year by the society to the general home mission work. The program of yesterday included a review of the text book study, "In Red Man's Land," given by Miss Mary Q. Evans, and a reading, "The Old and the New," given by Mrs. Lester Bennett. The afternoon closed with the serving of delicious refreshments by Mrs. Garrett. The July meeting will be held with Mrs. G. W. Null as hostess.

### TO HOLD ANNUAL CHAUTAUQUA.

Pickering Will Enjoy a Week of Entertainment from July 24 to 29.

The annual summer Chautauqua at Pickering will be held this year the last week in July, from July 24 to 29 inclusive. The course will be given by the Jones Chautauqua system, and some splendid entertainment will be provided.

Among the speakers for the week are Thomas P. Byrnes, Rev. George E. Ferguson, Dr. Charles F. Sheldon. The Versatile Entertainers will give a program, and a recital of songs and readings will be given by Earl C. Van Dusen. Other entertainers will be Rose Bush and company, Pearl Jane Dougherty, Beatrice Parkhill and the Howard Male Quartet.

### Glad to Entertain Them.

The people of Maryville and Nodaway county are invited to Burlington Junction Saturday, July 3, where the business men and citizens will be glad to entertain them. Speaking by Hon. Merrill E. Otis. Music by Fourth Regiment band. Base ball, Hopkins vs. Burlington Junction. Athletic contests. Free attractions and carnival at night. Sure enough ice water and shade. Good place for your teams and automobiles. Make this one of your positive engagements for the Burlington Junction folks will be glad to see you and entertain you free.—Adv.

### To Hold A. M. E. Conference Here.

The negro district Methodist conference for 1916 will be held at the A. M. E. church in this city June 20, next. The meeting will bring a large number of Methodist ministers and workers to Maryville.

Clarence Baker, an official in the church of Maryville received word of the meeting place today.

### To Attend Funeral.

Mr. and Mrs. Charles Florea, Mr. and Mrs. Everett Florea and Mr. and Mrs. Charles Killam, east of Pickering, were called to Maryville last night on account of the illness and death of Joseph Weaver at St. Francis hospital last night.

### Arrives from Edina.

Mrs. Cora S. Fowler of Edina, Mo., arrived in Maryville yesterday for a visit with her mother, Mrs. Callista Dawson, and her brother and sister, Attorney John Dawson and Miss Eva Dawson.

# PAIGE

The Standard of Value and Quality

## Why The Paige Has Swept The Country

IN THE SATURDAY EVENING POST of January 3rd, we first introduced the Paige "Six-46" to the American public. In that advertisement we said:

"It is our conviction that history has repeated itself and the Paige Company has again set the standard of value in the moderate priced field.

"Henceforth, "Six" prices and "Six" values will be judged from a viewpoint of Paige achievement."

This was the prediction that we made when we introduced the Paige "Six-46."

This was the statement which, we believe, has been absolutely realized in six short months.

The success of this remarkable car has far exceeded every expectation that we had for it.

We knew that we were building right.

We knew that no better material or sounder principles of construction could go into any car at any price.

We knew that—feature for feature—this car marked a distinct epoch in automobile manufacturing.

But, with all of our confidence, we could not foresee the tidal wave of demand which has been created in such an amazingly short time.

From every section of the country—from the large cities, small towns and farm districts—there comes a constantly increasing demand upon the factory for "More Sixes—More Paiges."

Dealers have doubled, trebled and quadrupled their allotments in order to keep pace with their orders.

Every night finds the Paige factory working on double shifts—every day finds our shipping platforms taxed to their utmost capacity with more "Sixes" bound for every section of the nation.

In the very middle of our production season it has been necessary to consider plans for increasing the present huge factory.

Now, these plans are under way. Ground will be broken immediately, and equipment installed to double the capacity of the Paige plant and produce 150 cars per day.

These are merely a few sidelights on the success of this great Paige "Six-46." If you would know why this car has attained such immediate recognition, we ask you to consider the following facts.

## The Paige Marks a New Era

Up to the present time, motor car competition has been confined within three distinct "price classes"—represented by low, medium and high-priced automobiles.

All cars have been judged in comparison with other cars of the same "price class." Manufacturers have been quite content to maintain consistent prominence in their various "price" divisions, and the Public has learned to estimate automobile values by this method of class comparison.

But one, epoch making development has been on the way. One car—three years in the making—has appeared upon the horizon.

And, in less than six months, this car—the Paige "Six-46"—has completely shattered all the standards of "Price Class" and established itself in an absolute unique and individual position.

Because the "Six-46" is a full HUNDRED POINT motor car, we contend that—IRRESPECTIVE OF PRICE—this car offers as much essential value as any automobile made in this or any other country.

Because this car embodies—in full measure—all that a man could desire in ANY car, we affirm that it fits, at \$1395, the topmost price that you should pay for the utmost in motoring.

In appearance the Paige "Six-46" is not only the most beautiful car, but the most distinctive and individual-looking car offered in the American market this year.

Its long, sweeping stream-lines are adapted from the very latest European designs.

Without being in the least bit "freakish," the Paige Six, is "smart" in every detail.

Its character is unmistakable. Wherever you see a Paige Six, on the city street, on the country road or parked at the curb, you recognize it instantly.

A distinctive feature of Paige design is the astonishing combination of beauty with unsurpassed comfort. While a light Six, it is a big Six.

It is designed to seat its seven adult passengers with ample room and luxurious motoring comfort for each and every one of them.

No motor car—not excepting the most expensive cars made in this country or abroad—can offer more motoring luxury than the Paige Six offers. In all essential details it has reached the highest achievement of motor car design and manufacture.

And withal, Paige Design has achieved Paige Economy. The "Six-46" is an economical car. That means more than the low price—\$1395. It means low tire bills, low gasoline bills, low repair bills and small depreciation.

The tremendous power and extraordinary flexibility of the motor in this record-breaking "Six-46" have been a potent factor in its nation-wide success.

Without shifting from high gear the "Six-46" throttles down to a slow walking pace and then "picks up" immediately to the speed of the wind. It is virtually throttle-controlled.

Paige cars have always been noted for their ease of control. Smooth gears—quick acting brakes—and a responsive steering wheel enable a woman to drive this car as readily as an electric. This means not only motoring-luxury, but the vital factor of safety.

## Check Up The Field

Point for point—feature for feature—the "Six-46" offers in essential value all that you can find in any car—regardless of price.

There is nothing better than the best. You can only hope to get out of a motor car precisely what the manufacturer puts into it.

Nowhere can you lay your finger on one single weakness—one single compromise—in the construction or equipment of this amazing motor car.

No matter how much you may be prepared to pay, you can't buy a better combination of motor car essentials than you will find in the Paige "Six-46."

If this car sold for \$5000 we couldn't employ better principles of construction than we deliver for \$1395.

Furthermore, the most discriminating motor car buyers in the country have recognized this fact. Men and women who can readily afford to buy any car have selected the Paige—not because of its price, but because of its QUALITY.

They have selected the Paige because it is a FULL HUNDRED POINT motor car.

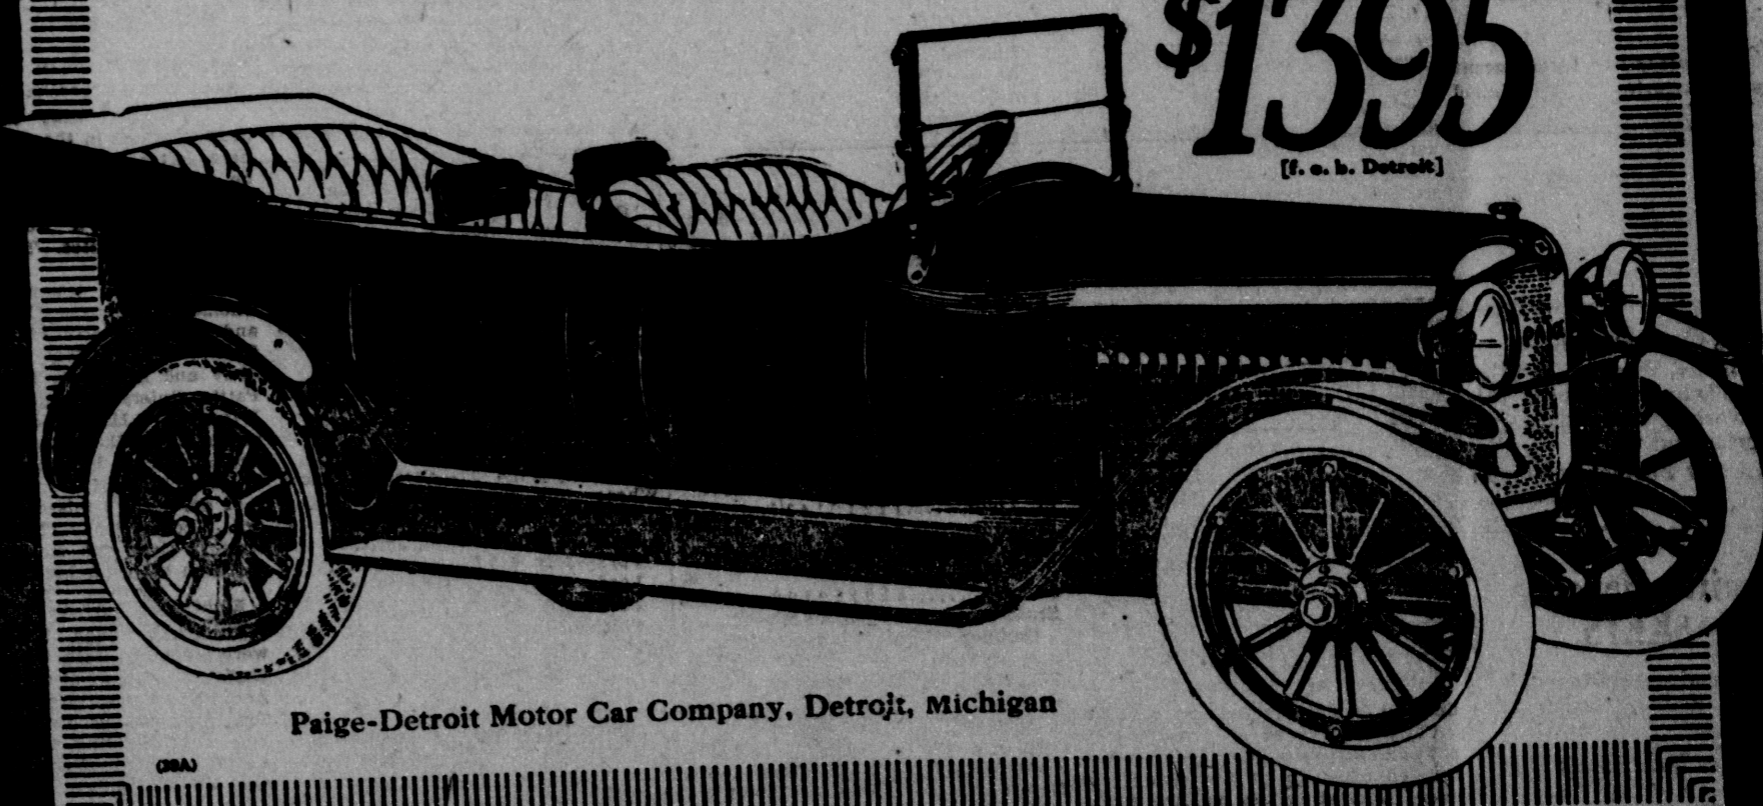

"The year-ahead car"—that is what they are calling the "Six-46" But—as a matter of fact—this slogan is quite inadequate.

The Paige has, indeed, created an entirely new Era. In appearance alone it has set the vogue for 1916 design, and will, undoubtedly, be the most widely copied car at next year's automobile show.

The Paige "Six-46" is a tried and proven success. Once again, Paige has "shown the way."

## RAINS DESTROY INSECT PESTS

University Expert Says Damp Weather Helps Kill Noxious Bugs.

That the recent rains in Missouri have helped greatly to keep down the insect pests is the opinion of Dr. Leonard Haseman, assistant professor of entomology at the University of Missouri. Doctor Haseman says the damp weather helps to destroy the

young insects and the eggs, and brings in other diseases which aid in destroying the pests.

The greatest benefit derived from the rains, however, was that the crops were strengthened to such an extent that the insects were not able to harm them very much.

"The chinch bug is still present in large numbers," says Doctor Haseman, "but the crops are maturing in

spite of them. The present brood will get wings sometime in July and then will come a second brood. Those in the wheat have already begun to migrate to the corn. The danger from the army worm is practically over. If they do come it will be in only a few communities."

Doctor Haseman says that the army worm comes in large numbers only every other year. He says that last

year was the worst for the army worm for a long time. Other very destructive invasions were made by this pest in 1861 and in 1875.

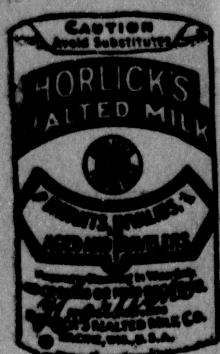

## Black Wonders to Play.

The Black Wonders, a negro team of Maryville, will play the Conception Junction base ball team at Conception Junction tomorrow afternoon. The Maryville players also will take several musicians along.

After being in service since 1846, the sandstone steps leading to the east entrance to the capitol building are to be replaced with marble at a cost of \$1,000.

Cuba's asphalt deposits, when developed, are expected to prove superior to all others throughout the world.

The United States in 1913 produced 231,757 tons of explosives.

## WILSON BEGINS TO ENJOY VACATION

President Settles Down at Summer Capital For a Rest.  
IS GIVEN A HEARTY GREETING.

Throngs Welcome Executive at Every Station Along Route—Secretary Lansing Will Do Most of Work on Note to Great Britain.

Cornish, N. H., June 26.—Under orders from his physician to take a complete rest, President Wilson settled down at the "Summer White House" for a brief vacation to prepare himself for the arduous work he is expected within the next few months in connection with the European and Mexican situations.

The president brought few official documents with him and officials at the White House had orders to forward him only the most pressing business, but nevertheless he plans to give much thought in the quiet seclusion of the Cornish hills to the next step in the Mexican question, to the submarine issue with Germany and to the discussion with Great Britain over commerce.

Secretary Lansing will do most of the actual work on the note to Great Britain, now being prepared, but the president has already gone over with him the broad questions of policy involved, and will see the note before it is officially forwarded to London. He read with deep interest unofficial forecasts from Berlin that there was a possibility that Germany's submarine warfare would be somewhat modified but refused to comment.

The president arrived here after a trip through Connecticut, Massachusetts and Vermont marked by frequent ovations from crowds which gathered at every station. He refused to make any speeches, but smiled broadly at laudatory comments from several hundred men, women and children with whom he shook hands.

#### DUN'S REVIEW OF TRADE

Cross Currents Continue in Business Channels.

New York, June 26.—Dun's says: Cross currents continue in business channels, but the tide of returning prosperity is gradually rising. Further progress is manifest, notwithstanding unseasonable weather, and especially in the west. This retards retail trade and tends to adversely affect the jobbers as well, while the agricultural outlook has been somewhat impaired by excessive rains. Harvesting of winter wheat is delayed and corn has received a set back, yet crop failures from too much moisture are comparatively rare, the other extreme having furnished the great records of less. The depressing influences are less keenly felt because they are believed to be temporary, and confidence in the future remains unshaken. No serious labor controversies threaten and the growing shortage of skilled workmen is about the only cloud in the industrial sky.

#### Becker Renews Fight.

New York, June 26.—Counsel for Charles Becker considered the advisability of an appeal to the United States supreme court to save Becker from execution in the week of July 12 for the murder of Herman Rosen. It was reported that either a writ of error or a habeas corpus might be requested on the ground of newly discovered evidence. Either writ would automatically stay Becker's execution.

#### Deputies Vote Over Billion.

Paris, June 26.—The bill appropriating 5,600,000 francs (\$1,120,000,000) to cover government expenses for the three months beginning July 1, was passed almost unanimously in the chamber of deputies, the vote being 492 to 1.

#### GRAIN AND PROVISIONS

Closing Quotations on the Chicago Board of Trade.

Chicago, June 26.—Closing prices: Wheat—July, \$1.04½; Sept., \$1.02½. Corn—July, 73½¢; Sept., 73¢. Oats—July, 44¢; Sept., 38½¢. Pork—July, \$16.75; Sept., \$17.17½. Lard—July, \$9.30; Sept., \$9.57½. Ribs—July, \$10.35; Sept., \$10.65. Chicago Cash Prices—No. 2 hard wheat, \$1.20; No. 2 yellow corn, 74½¢; No. 3 white oats, 47½¢; 48½¢.

#### Chicago Live Stock.

Chicago, June 26.—Cattle—Receipts, 1,000; steady; native beef steers, \$6.75 to \$9.35; cows and heifers, \$4.70 to \$8.25; stockers and feeders, \$5.60 to \$8.20; bulls, \$5.35 to \$7.25; calves, \$8 to \$10. Hogs—Receipts, 7,400; 5¢ higher; bulk of sales, \$7.65 to \$7.80; light, \$7.60 to \$7.95; heavy, \$7.20 to \$7.80; rough, \$7.25 to \$7.35; pigs, \$6.75 to \$7.50. Sheep—Receipts, 10,000; firm; sheep, \$5.50 to \$6.40; lambs, \$6.75 to \$9.25; springs, \$7 to \$10.40.

#### South Omaha Live Stock.

South Omaha, June 26.—Cattle—Receipts, 350; steady; beef steers, \$7.25 to \$9.35; cows and heifers, \$4.70 to \$8.25; stockers and feeders, \$5.60 to \$8.20; bulls, \$5.35 to \$7.25; calves, \$8 to \$10. Hogs—Receipts, 7,400; 5¢ higher; bulk of sales, \$7.65 to \$7.80; light, \$7.60 to \$7.95; heavy, \$7.20 to \$7.80; rough, \$7.25 to \$7.35; pigs, \$6.75 to \$7.50. Sheep—Receipts, 9,400; 10¢ to 15¢ higher; sheep, \$5.50 to \$6.40; lambs, \$6.75 to \$9.25; others, \$5 to \$6.25; ewes, \$4 to \$5.35.

## FIVE MORE TESTIFY THAT THAW IS SANE

State's Attorney Will Bare Life History of Harry and Evelyn.

New York, June 26.—Interest in the proceedings to ascertain whether Harry K. Thaw is now sane or insane was divided between the taking of evidence in court here and the application by counsel for the state for the appointment of a commission to learn from Dr. Charles W. Eliot, president emeritus of Harvard, why Thaw left that institution in 1892 without completing his course.

Deputy Attorney General Cook, in outlining the state's case to newspapermen, said in addition to tracing of the life of Thaw the state would also bring to light the life history of Evelyn Nesbit.

Dr. Noel E. Guillett of Manchester, N. H.; Walter M. Lang, a real estate agent of that city; Mrs. Lang, Eugene P. Nyte, Thaw's federal custodian in New Hampshire, and Major Robert P. Johnson, who said he met Thaw at various social occasions, testified as to their entire belief in Thaw's sanity.

#### CONFESSES 13 MURDERS

One Victim of Negro Hanged in Alabama Was a Nebraska Deputy Sheriff.

Birmingham, Ala., June 26.—Sydney Jones, hanged in the county jail yard here, left a note in his cell in which he confessed thirteen murders. Two of his victims, a Mobile and Ohio brakeman and a Nebraska deputy sheriff, were whites. The others were negroes.

Jones named among his victims Thomas Thompson, Charles Bennett and Deputy Sheriff W. S. Mosley of Crawford, Neb.; Shay White, Thomas Shay and Sam Lee, Monterey, Cal.; Pattie Quintero, a Mexican at Fort Wingate, N. M.; and John Littlejohn an Indian at Sheridan, Wyo. The unnamed railroad brakeman, he said, he killed at Boyd, Ky.

"I am sorry I missed getting Richard Moore, Sept. 12, 1912," Jones wrote. "Just one more would have made an even number."

#### Eight Men Burned by Explosion.

Pittsburgh, June 26.—Eight men were probably fatally burned in an explosion of gasoline at the works of the Aetna Explosives company in this city. The explosion occurred in a corrugated iron building and the men escaped by jumping from windows, with their clothing ablaze.

Terre Haute Men Finish Their Terms. Indianapolis, June 26.—Thirty-one Terre Haute poll fraud conspirators were released from jail here at the expiration of their sentences of sixty days each. Costs amounting to \$91.50 each, a share in the expenses of the trial, were paid in addition to fine of \$1 each.

#### Huerta on Way to Exposition.

Chicago, June 26.—General Victoriano Huerta, former dictator of Mexico, slipped quietly into Chicago. He was accompanied by his son and a secretary and said he was on his way to the exposition at San Francisco "to relax my nerves after trying experiences."

#### MOTOR TOURING INCREASES.

Statistics Show Tremendous Growth in Automobile Trips—Roads Being Improved.

America is already feeling the effect of an enormous increase in automobile touring over previous years. The figures up to June 1 have reached a volume without precedent in any previous year's records. This information comes from the national clearing house for automobile touring, the American Automobile association, with headquarters in Washington, D. C.

Just as straws show the direction of the wind, so do many of the unusual requests for touring routes demonstrate there are many new incentives that are bringing about this increased travel.

One of these that has become rather prominent within the last week because of the time of the year, has been the number of requests for route information between the east and west on the part of those who have planned to make the trip with sons and daughters who are attending the various preparatory schools and colleges in the east.

Heretofore the home-going of students has been by train, but this year the spirit of touring has so increased that it has brought about a desire and fulfillment to make the trip by automobile.

Another point showing the increasing interest in more general touring are the requests for data through sections that have formerly had but little attention. Many of these inquiries come from those who previously confined their summer touring to the northeast section of the country, but are now looking for variants that they may become equally familiar with other sections famed in colonial and subsequent history. Some of this area is today travelable, but even after the roads have become settled, during the summer, there remain, many miles which must be put in better condition before touring can become a really definite proposition. Much road building has been done, and it must be said for the various authorities that a great deal more is now planned and will be carried out this year.

One of these embraces a circuit in Virginia that will take in most of the renowned battle fields of the civil war that heretofore were practically isolated from the tourist.

America's population has merely doubled within the last thirty years, the number of wage earners has increased 200 per cent. In 1880 the value of our manufactured products was \$5,000,000,000, as against \$20,000,000,000 in 1910, while the capital invested increased from \$2,000,000,000 in 1870 to \$10,000,000,000 in 1910, or 500 per cent.

Government estimates that in addition to the loss of \$300,000,000 in the cereal crops caused by insects, the loss on vegetables is \$53,000,000, on fruit \$27,000,000, and on other crops enough more to bring the total loss up to \$580,000,000, all in one year.

Ireland has an electric railroad for which cars have been designed to be run by gasoline-electric generators which they carry or by the overhead trolley system.

CITY SAND POINT  
WATER EXCELLENT

LABORATORY TEST SHOWS "HARDNESS" IS TEMPORARY.

PLANT TO IMPROVE AND  
ENLARGE NEW SYSTEM

Board of Public Works to Enlarge Pipes to Pumps and Maybe Install Aerator—River Seeldom Used.

The water taken from the twelve "sand points," which the city has been serving the patrons of the municipal water plant the last five weeks, is an excellent water, both for municipal supply and commercial purposes after lime treatment, according to a chemical analysis made by the Kansas City testing laboratory. It is true that there is a "hardness" to the water, due to the mineral ingredients in it, but, according to Dr. Roy Cross, who made the test, the "hardness" is only temporary and can be easily removed.

It might not be generally known to the patrons, but they have drunk scarcely any 102 river water for the last five weeks, according to Superintendent J. H. Martin. For only twice within the last five weeks, has the management resorted to the river water to supply the demand.

The last two days a few have believed that the river water was again being used because the fluid was slightly roily. That has been caused, Superintendent Martin says, because an inspection, repair and flushing of the city water hydrants has been in progress the last two days.

In order to flush the hydrants it was necessary to roll the water therein by stirring up the accumulation of particles left in the water. After the flushing and inspection is finished, he says the water will be more clear than ever before.

**Plan to Improve System.**

The board of public works also is arranging now to consider several improvements in the sand point system, at the next meeting, next Thursday night, July 1. After these improvements are made it is believed a plentiful supply of good water can be secured from the sand point wells without having to resort to the river water. This will be done largely by enlarging the pipes running from the pumps to the wells.

The city is now using twelve sand points, although one is not believed to be furnishing much water. No more sand points have been installed recently because of the rains and flood waters.

The samples of the city sand point water was sent recently to the Kansas City laboratory and also to the state geologist, Mr. Buehler at Rolla, but on account of Mr. Buehler's absence it was impossible to get a test made by the state at this time. One will be procured later.

**Here is Laboratory Finding.**

The following report was made by Dr. Cross, formerly city chemist at Kansas City, relative to the sand point water:

Mineral Substance	Grains per Gallon
Silica	.81
Iron	.67
Alumina	.15
Calcium	4.14
Magnesium	.77
Sodium	.78
Bicarbonates	18.70
Chlorides	.41

Treatment for hardness—Two pounds of lime per 1,000 gallons of water.

Remarks—The characteristic ingredients of this water are the bicarbonates of iron, lime and magnesia. For removing the iron aeration will cause its separation. After the lime treatment, this water will be excellent for both commercial purposes and for municipal supply.

Respectfully submitted,  
Kansas City Testing Laboratory,  
Per Roy Cross.

The city has never used the lime treatment yet in the sand point water but it has used the aeration method by a crude arrangement. It is planned to get an aeration system at the plant. The lime treatment also will be used.

## MILITIA IN NEW HOME TODAY

Company F Moving Lockers in Hall, North Side of Square—Banquet Planned Monday.

Company F and the Fourth Regiment band are moving their quarters from the second floor of the Tribune building to the room at 116 East Fourth street, today, preparatory to occupying the new armory after this week. A banquet in celebration of the new home is being arranged for Monday night, when a smoker and eats will be furnished to members of both the company and the band.

Speeches and toasts also will probably be given during and after the dinner.

The new hall will give a depth of 132 feet and a width of twenty feet, so that ample room for drilling is furnished. The rear of the hall will be partitioned into equipment and dress rooms, now, which will cut off the drill space slightly.

The hall has been improved with a steel ceiling, steam heat provided and the room repapered. The company will pay \$40 a month and the band \$10 a month rental for the new hall.

## OLD RESIDENT A SUICIDE.

Charles Freemyer, Near Sheridan, Killed Self With Shotgun—Resident Since 1857.

Charles Freemyer, 84 years old, who has lived on a farm near Sheridan, Worth county, since 1850, committed suicide by shooting himself with a shotgun at his home Thursday. Freemyer had placed the muzzle of the gun in his mouth and supposedly fired it by pressing his foot against the trigger.

Freemyer had been a resident of Worth county since 1857.

## Turtles in City Streets.

The latest story of streets of Maryville being converted into aquariums comes from Mrs. John Snapp, 408 East Seventh street, who reports that a big water turtle has made its home in a pool in the ditch at the side of the street in front of the Snapp residence.

## FIGHT IS INTENSE

SLAVS AND TEUTONS IN BITTER BATTLE ALONG DNEISTER.

## RUSS CLAIMS VICTORY

Force Austro-Germans to Retreat—Italian Attacks Are Repulsed—Kaiser to Strengthen Forces.

London, June 26.—Divergent claims leave doubt whether the Russians or the Teutonic allies have the upper hand in the desperate battle being waged along the Dniester river in Galicia. Between Zoravna and Halicz the crucial point in this front, a conflict of great intensity is being carried on and here both sides claim success. None of the reports, however, indicate that any decisive advantage has been gained.

The Russians assert that they are hurrying up reinforcements and they have forced the Teutons to retreat across the river in this sector. The Germans admit a reverse here, but their Austrian allies, in their latest communication, declare that counter attacks by the Russians on the north bank of the Dniester have been repulsed and that the attack of the Austro-Germans on the south bank, which they claim to have repulsed, was a tactical success. The latest French official statement tells of artillery duels at different points along the western front, but chronicles no decisive engagement. Both the French and the Germans claim successes in the field of operations.

## Italian Attacks Repulsed.

In the Italian war theater artillery combats are continuing. The Austrians claim to have repulsed two attacks by the Italians on the frontier coast district east of Robini. News dispatches state that the Italian forces are advancing both from the east along the Fella valley and from the south through Predil pass toward Tarvis, although because of the difficulties of mountain warfare this progress is slow. General Cadorna, the Italian commander in chief, apparently plans to attempt an invasion of Austria through the region around Tarvis, threatening the right wing of the Austrian army having headquarters at Laibach and thus obtaining relief from the pressure of the Austrian forces massed along the Tolmino-Gorizia-Trieste front.

The Germans, according to an authoritative military source, will be able to place eighteen more army corps in the field by the end of July. These, it is said, will be made up mostly of the second category of the landsturm men who have never performed military service but who are now in training in the reserves.

## INDEX FINGER IS SEVERED.

Wesley Howland Has Another Gashed in Saw, When Hand Is Drawn In.

Wesley P. Howland, 522 West Third street, had the tip of the index finger of his left hand severed and the large finger cut to the bone at 3:30 o'clock yesterday afternoon, when his hand was drawn into a saw at the carpenter shop of Foster & Hahn. He was holding the end of a board down with the hand when the accident happened.

## EPWORTHIAN MEET ENDS.

South Methodist Young People Return From Savannah—At St. Joseph Next.

The three days annual district meeting of the Epworth League of the South Methodist church of the St. Joseph district closed at Savannah yesterday afternoon. Local delegates returned last night. The next annual meeting of the Epworthians is to be held in the Gooding South Methodist church at St. Joseph.

Those attending from Maryville who returned last night were the Rev. J. H. Hubbard, pastor of the Buchanan Street Methodist church; Miss Iva Hubbard and Miss Nina Evans, delegates. I. B. Williams returned Thursday.

Others from over the county who were in attendance and also assisted in the program were: Rev. M. Dewitt, Skidmore; Miss Donna LaMar, Elmo; Miss Rose Campbell, Elmo; Mrs. E. C. Starin, Guilford; Miss Mattie Bishop, Ravin, Wood.

## Drunk Is Fined \$5.

Hugh Brady was fined \$5 and costs of \$6.10 in police court yesterday afternoon on his plea of guilty to a charge of drunkenness.

## HE SHOWED SKILL; DROWNS

Albert Pearson, Demented, Run Away, Buried in Kentucky, Father Here Learns.

That the young man who drowned June 19 in the Ohio river was Albert Pearson, son of Mr. and Mrs. M. H. Pearson, who escaped from the state colony for feeble minded and epileptics at Marshall, is entirely proven. The body now lies buried in Kentucky, where it probably will be allowed to remain.

A letter received today by Mr. Pearson from R. P. C. Wilson, superintendent of the Missouri Colony for Feeble Minded and Epileptics at Marshall, contains the following:

"On Saturday afternoon, June 19, a young man apparently 19 or 20 years of age, went out in a skiff with two colored men in the Ohio river at Henderson, Ky., where he removed his clothing, and in order to show his ability as a swimmer, he dived off the boat, his object being to swim to the shore. The water being cold, he evidently was attacked by cramps, as he went down despite the efforts of the men in the boat to rescue him.

"In his clothing were found papers, note books, etc., which led the authorities writing me concerning the incident, and the description, etc., furnished me led me to believe that it was your son, Albert. I at once sent our steward to investigate the matter, and his investigation has convinced me beyond any doubt that the boy who met his death in this manner was your son, who escaped from this institution a few days ago.

"The body was recovered Monday evening, June 21, at 2 p. m., floating in the river some 12 miles below where he was drowned. The coroner of the county at once held an inquest, the verdict being accidental drowning. The body, owing to its condition, was buried at once at McDonald's Landing, Ky., by the undertaker at Henderson."

## PLAY DELIGHTS CROWD.

Colonial Entertainment at First Christian Church Given With Good Success.

The children who presented "A Bride of Colonial Days" at the First Christian church last night pleased a big crowd of people who witnessed the entertainment. The play, which was given entirely in colonial costumes and scenery, was perfectly rendered and given with an snap and movement which took away any amateurishness. The presentation was the story of the wedding and nuptial reception of George Washington and his bride, and the children taking the character parts acted them with unusual grace and aptitude.

## NOTED MINISTER HERE.

Dr. W. S. Holt of Philadelphia Will Speak at Presbyterian Church Tomorrow.

Dr. William S. Holt, D. D., LL. D., of Philadelphia, will be in Maryville tomorrow and will preach tomorrow morning at the First Presbyterian church. Dr. Holt is secretary of the board of ministerial relief of the Presbyterian church and is one of the most noted workers of the denomination. The pastor, Rev. S. D. Harkness, will preach at the evening service.

Miss Lillian Lindholm of Ottawa, Ill., who has been visiting in the city, will sing at both services tomorrow. At the morning hour she will sing the aria, "O Rest in the Lord," from "Eljah," and at the evening service she will sing "My Redeemer and My Lord," by Dudley Buck.

## Miss Farmer to Return.

Miss Lois Farmer, who has been attending Oberlin college, Oberlin, O., will arrive home Monday morning to spend the summer with her parents, Mr. and Mrs. S. E. Farmer. Miss Farmer has been spending the past week in Chicago, the guest of Mr. and Mrs. George Richard Eaton, former residents of Maryville.

Read Democrat-Forum want ads.

## WANT ELECTRICITY

PICKERINGITES AND FARMERS SUGGEST MODERN LIGHTING.

## WOULD GET IT HERE

Manager of Local Power Plant Conferred With Union Township Residents Last Night.

Another Nodaway county town gives promise of entering into the twentieth century class of municipalities by installing electric lights. This town is Pickering, and the preliminary steps were taken last night at a conference of Pickering business men and farmers living adjacent to the town, and C. C. Hellmers, manager of the Maryville Electric Light and Power company.

The meeting was held at the Lock school house and was attended by a big crowd of Pickering boosters. The proposition made by Mr. Hellmers was that the Maryville company would install current wires between Maryville and Pickering, furnish service for the town and all farmers living on the route between upon the granting of the franchise and the purchase of \$3,000 worth of stock by the Pickering property holders, the consumers to pay for their lights at the usual rate furnished Maryville consumers.

A committee composed of J. E. Herbert, C. G. McMillen and Wilbur Smith was appointed to investigate the proposition, and this committee will report at a later meeting, when some definite action will be taken.

## Eighth to Consider "Juice."

Pickering is the eighth town in the and Pickering, furnish service for the electric light proposition. Elmo, Burlington Junction and Hopkins are already using an electric service; Barnard, Graham and Skidmore will each have a system completed and ready for use by September 1, and Conception Junction has a proposition up for consideration at present. Both Conception Junction and Pickering are anxious for the improvement and will probably make some arrangements for obtaining an electric service within the coming few months.

## FEDS TO PLAY CLARINDA

Maryville Meets Iowa Players Here Tomorrow Afternoon—Plan 4 With Stanberry Soon.

The Federals will play the baseball team of Clarinda, Ia., at Federal Park here at 3 o'clock tomorrow afternoon. A slightly new lineup is contemplated by Manager Cleve Funk, for the game tomorrow. Frank Hain and Delma Carmichael will continue as the battery for the local team however.

"Swede" Conley will succeed Scott at third base, however, while Scott will move over to short stop position. Wiles or Woodard will play the right pasture. The remainder of the lineup is unchanged.

As announced this morning the full line up tomorrow will be: Ham, p; Carmichael, c; Tilson, 1b; Bailey, 2b; Conley, 3b; Scott, ss; Morris, lf; Ernst, cf; Wiles or Woodard, rf.

Clarinda was defeated 2 to 9 by Hopkins at Hopkins last Sunday, but it is said only four of Clarinda's regular players were in the game that day. It has been winning against some strong Iowa teams.

Manager Funk arranged today for four games this season with the Stanberry Red Sox, two to be played here and two at Stanberry. The first to be played here will be on Sunday, July 11, and the second on Monday, July 12, at Stanberry. Manager Lester A. Hawthorne of the Stanberry Red Sox notified the local manager today.

It was planned to play Shenandoah at Shenandoah, Ia., Sunday, August 8, but the arrangements may be shifted, Manager Funk said, so as to play at Stanberry that day instead. That will be the first game away from home for the Federals.

They will play the Rapids of St. Joseph here, July 4 and 5; Stanberry July 11, and Bedford, Ia., July 18. A game also has been arranged for July 27.

China has undertaken a comprehensive plan for improving its telegraph and telephone systems which will cover more than nine years of work.

## DREDGE BOAT SUNK; RAISED

102 River Shovel, Filled With Water, Is Again Floated—Build Dam Now.

The dredge boat used in digging a new and straighter channel for the waters of the 102 between the Iowa line and south of Maryville, was again brought to the surface by workmen yesterday morning, after it had been sunk for the second time in flood waters. The work of constructing a dam to resume operations in the channel digging was begun today.

The dredge boat sank a few days ago when the flood waters rose so rapidly during the night that the workmen on board were not awakened until the water had arisen over the deck and partly filled the hold with water. Before the boat could be loosed from its moorings, the dredge had sunk. It was sunk the first time last winter, near Pickering.

Senator Anderson Craig, a member of the drainage board, said yesterday afternoon that work on the channel would hereafter be pushed with all progress possible so as to finish the work by early fall.

## TO HOLD FUNERAL AT MALVERN.

Joseph Weaver of Pickering Dies at City Hospital Late Yesterday Afternoon.

Joseph Weaver, who had lived for many years on a farm east of Pickering, died late yesterday afternoon at St. Francis hospital in this city. Mr. Weaver had been in poor health for some time. He was brought to the hospital a week ago for treatment.

The body was taken this morning to Malvern, Ia., where the funeral services will be held tomorrow. The body was accompanied by the widow and a brother, James Weaver of Malvern, who had been in Maryville several days. Mrs. M. E. Farrar and Harry Farrar, old friends of the family, accompanied the funeral party also.

The only other near surviving relatives of Mr. Weaver are two brothers living in Wisconsin.

## MAJOR HINTS HE WON'T RUN.

The Governor May Not Enter the Senatorial Race.

Governor Major, in an address at the Elks club in St. Louis last night, said: "When my term as governor expires I will move to St. Louis and practice law."

When asked after his talk if this meant that he would not be a candidate for the United States senate against Senator James A. Reed, he refused to discuss the question, saying he had nothing more to add to his statement. Governor Major, for more than two years, has been discussed as a probable senatorial candidate, but steadfastly has refused to announce whether he would run.

## TO PICNIC, NOT CELEBRATE.

Ravenwood Women Plan Quiet Affair July 5 in Park.

The Park club, composed of women of Ravenwood, are planning a quiet observance of Independence day in the park there Monday, July 5, instead of the usual roar and glare style of celebration, according to the Ravenwood Gazette.

Those attending are requested to bring a lunch and hold an old-fashioned picnic on the grounds. The band will also aid in entertaining. The business establishments of the town are each intending to furnish one or more benches to be installed in the park.

## Visit Relatives in Iowa.

Mrs. Marion F. Smith, West Fifth street, and little daughters, Nellie Marian and Eudora Otha, left today for Colfax, Ia., where they will visit Mrs. Smith's mother, Mrs. Anna Day, and two daughters, Dora and Bernice.

### Largest Circulation in Nodaway County

There will be no famine in Germany now. Lemberg has been recaptured.

The Russians were short of arms but fortunately their legs were in good working order.

William J. Bryan announces that he will return to Nebraska and continue his voting residence there. Some are disposed to see in this his candidacy for the United States Senate.

Maryville is dressing up. New suits are in evidence daily and the town is showing signs of general prosperity. There is prosperity for the lucky purchasers and prosperity for the merchants who garner in the cash.

The ladies of the civic federation have declared war on weeds. This is a righteous war and we hope that their ranks may grow rather than diminish and that they may never lack for arms or ammunition.

It is to be regretted that the proposed paving has been delayed by defects in the ordinances etc., but it is well to make haste slowly some times and, like Davy Crockett, be sure you are right. Practice makes perfect and perseverance will win in the end.

No greater convenience has ever been invented than the telephone but it is sometimes abused. Friends, for instance, of employees of a business concern should remember that there is rarely any time for visiting during business hours and should not call unless they have important business. Frequent calls of employees take some one away from his work a great part of the time to answer the phone, it demoralizes the business by taking workmen away at busy times and may keep several others waiting until one returns and disturbs the work of others who are not interested in the conversation! Employees are often compelled to walk several hundred feet per day to answer unimportant calls and an injustice is thus done them. This loss of time and disturbance amounts in the course of a year not only to hours but to days and weeks and large manufacturing concerns are compelled to refuse such calls altogether. Of course friends do not realize these accumulative results but calls upon friends in business concerns should be made on important business only or after closing hours.

#### A BIG BALANCE AHEAD.

The trade balances in favor of the United States for the fiscal year now nearing an end, will amount to the enormous sum of one billion dollars. When the war in Europe began there was a trade balance against the United States of \$300,000,000. After squaring this and the \$400,000,000 or more needed to liquidate interest on securities held abroad, ocean freight bills and the expenditures of American tourists, etc., there will still be due the United States about \$300,000,000 net. But with the incoming of the next fiscal year all these obligations will be wiped out and business will begin with a clean slate so far as the United States is concerned. There will be no balance hanging over against us, there will be no vast expenditures abroad by American travelers, and there will not be such heavy remittances abroad by our alien population.

In addition to these facts, if the war continues our business will be vastly increased over the present year. It has only recently gotten into full swing, and it should reach the stupendous sum of a billion and a half, and go

possibly two billion dollars, with little or no offsets.

The question then will be how to take care of the balances. It cannot be handed to us in gold, because Europe hasn't the gold. It can't be paid in American securities, because these belong to individuals and not to governments, and with the securities of the countries at war of more or less doubtful value, private investors will not make any grand rush to part with the sound securities of the only great country not involved in the war. It then becomes a question of trading our products for foreign securities mostly. The securities of the smaller countries of the world held by the countries of Europe and their own securities. Thus the United States becomes what England has been, a great creditor nation, all in the course of a couple of years.

One effect of the war has been to demonstrate and test our ability to quickly turn out enormous quantities of war supplies. It is estimated that already the shipments of war munitions to Europe from this country have amounted to one and a half billions of dollars, and orders are being increased and the factories now in full swing are working busier than ever. Last fall Russia ordered great quantities of supplies which are just now beginning to go forward, not soon enough to save her from her recent defeat. Since Archangel has been cleared of ice a tremendous amount of finished products and a like amount of raw materials for Russia's own factories have been loaded. Ten big steamers have cleared at New York for this one western outlet of Russia within the past week, and a great deal has started from San Francisco to go via the Vladivostok route. An army officer declares that, in the present development of supply factories, if this country should become involved in any way, the United States could turn out more munitions of war than all the balance of the world combined.

### CHINESE ORATOR TO COME

Ng Poon Chew Will Tell Chautauqua Audience August 10 of China and Her Problems.

Ng Poon Chew, the great Chinese scholar, author and statesman, is coming to Chautauqua to tell the people about "China and Her Problems." No country in modern times has so surprised the world as China did in coming out of her ancient form of government and transforming herself into a republic. This great change, in view of her 400,000,000 population, has

certainly loaded her leading men with problems a hundredfold more difficult of solution than the ordinary person has ever dreamed of.

Ng Poon Chew is a great orator, speaks the English language fluently and has a message of strong educational value as well as of gripping interest. His visit to the Chautauqua will be an event of importance and will create a great deal of enthusiasm and interest.

#### Rural Teacher in Town.

Miss Dora Smith of Wilcox was in Maryville today. She will teach at the Wilcox school next term. She taught the Star of the West school last term.

#### College Head Moves.

Prof. A. W. Cooper, head of the Maryville Business college, and his family have moved this week to the Mergen cottage on West Seventh street.

#### Mrs. Aley Here.

Mrs. George Aley, Sr., of Burlington Junction, came to Maryville yesterday to visit her sons, John, George, Jr., and Clun Aley, and families.

In Japan private individuals own only the surface of the land and its products. Mineral deposits beneath the property of the

### COBURN COME HERE MONDAY

Will Give Three Shows at the State Normal School—The Yellow Jacket Monday Evening.

The Coburn Players, which will appear at the State Normal School, and will present "The Yellow Jacket" Monday evening, "The Imaginary Sick Man" Tuesday matinee, and "A Midsummer Night's Dream" Tuesday evening, next week, will be well worth attending. It will be one of the very best shows that has been in Maryville, and people should take advantage of the opportunity to attend.

Wherever the Coburn Players have been they have been well received and have pleased the large audiences. The St. Louis Republic of June 16, in speaking of the Coburn Players, says:

Charles Douville Coburn of the Coburn Players will talk today at the City club on the function of the theater. We do not know what Mr. Coburn will say, but of one thing it is easy to be sure: No speech, however well considered and informing, could possibly set forth the true function of the theater as saliently and convincingly as has Mr. Coburn's work on the stage during the past few years as actor and as manager.

The function of the theater in a country which has somehow lost the way dramatically just at the time when the musical arts are growing in popular appeal and advancing in popular comprehension will never be worked out satisfactorily except as it is made to reveal itself in practice; and for this we must have the spirit of self-devotion and the sheer love of great plays and great playing for their own sake that characterize the Coburn Players.

It is a pleasure to speak a word of recognition of a company of artists who have labored so unostentatiously and so successfully. Much of their work has been done in educational centers where the audiences were made up of students, with their sisters and their cousins and their aunts, not to speak of their male relatives. These young people, just at the impressionable age, and their older relatives and friends, representative of the bone and sinew of American citizenship—people of clean lives, workers without either poverty or riches—have looked and listened their fill with their pleasure unmediated by theories. They have sat under the open sky looking toward a screen of leafy branches at the rear of an improvised stage and have seen the life of Venice and Verona go by, the castle of Macbeth arise, the seacoast of Bohemia loom through the mist. They have seen players who played Shakespeare as a Hungarian orchestra plays stringed instruments—with an intelligence set on fire by enthusiasm. They have found Shakespeare "fun"—and until this stage comes you have no art, notwithstanding the dreary conscientiousness of the people who get out annotated editions.

It was one of the sayings of the old days of sacrifices on altars that without the shedding of blood there was no remission—there must be a living victim. Down under the crudities and the blunders of that day there was a profound truth. The only way in which faulty things may be made worthy and mistakes and wrongs undone, whether in religion, education, statesmanship or art, is by the pouring out of the essential strength of human lives in the kind of service that gives everything for the end desired.

If we can only have enough players playing the great dramatic masterpieces just because they cannot be altogether happy doing anything else, and going to the people wherever the people gather together with God's sky over them and God's trees about them, we can turn the world into a Forest of Arden—and find our dukedoms there.

#### Baptist Church Service for Sunday.

Men's Organized Bible class and primary department at usual hour and place. Remainder of Sunday school and preaching service, morning and evening. Usual hours at the court house. 25-26

#### Normal Students Go Home.

Miss Esther Stoner, Miss Ethel Stoner and Miss Cleora Dows of Sheridan, who are attending the summer term at the Normal, returned home today for the week end.

Burlington Junction will entertain you free Saturday, July 3.—Adv.

The longest bascule bridge in the world crosses the United States ship canal at Sault Ste. Marie, Mich. It is 265 feet in length between centers of front piers, or 336 feet from trunnion to trunnion.

#### Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give you Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

J. J. CHENEY & CO., Toledo, O.  
Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

## RAVENWOOD ORCHESTRA IN BIG DEMAND

Members—From left to right, standing, Norvil Lyle, Miss Fay Bishop, Miss Nellie Bentley, Tenney Tebow, Miss Clara Bond, Frank Tebow. Seated, left to right, H. T. McMullen and Theodore Brantford.

It is not often that a band or an orchestra in a small town "gets anywhere" when it comes to fame or laurels, but an exception is found in the Ravenwood orchestra, composed of ten bright young men and women of that Nodaway county town.

For they are not only in demand to give concerts, or play for dances and

entertainments of various kinds at home, but also are called on for music by other towns in the county and other counties as well.

What is more, a young woman manages it. She is Miss Fay Bishop, the pianist for the orchestra.

The Ravenwood orchestra furnished music for the district Epworth league convention at Savannah yesterday, and last night gave a recital in the Hocker

hall at Guilford. The orchestra has been organized several years.

The members are Miss Fay Bishop, pianist; Tenney Tebow, Miss Clara Bond and Miss Wavie Ralston, violin; Henry McMullen, cornet; Frank Tebow, trombone; Rex Bond, drum; Miss Nellie Bentley, cello; Theodore Brantford, cornet; Norvil Lyle, flute. Miss Ralston and Rex Bond are not shown in the accompanying picture.

#### Expert Advice to Automobile Owners.

Will you please furnish me with some information regarding brazing process?

Brazing metals, which means that they are joined by a film of brass, requires a red heat and borax is generally used as a flux to protect the metal from oxidation and to dissolve the oxides formed. Heating must be done by means of a blowtorch, gas forge, coke or charcoal furnace and cannot be done by means of a soldering iron. Before work is assembled for brazing it should be carefully cleaned. The parts are then fastened together, generally by pinning, but sometimes wire bolts or clamps are used. If possible the pieces should be fastened in such a way that the work may be turned over during the process of brazing without changing the relation of the parts.

My motor does not fire regularly. Sometimes it misses on one cylinder and then again two become affected. The missing skips from one cylinder to another. Position of gas and spark levers does not seem to make any difference, and the trouble is equally bad on magneto and battery. Can you explain this?

The missing is undoubtedly caused by faulty ignition or carburetion, and it seems more likely that the former is the cause. First look for short circuits. Operate the motor in the dark at a moderate rate of speed and note whether any sparks jump from any part of the wiring to the motor or frame. Inspect the insulation of all the wires for worn or broken spots where a short circuit to the frame might be produced. Any such spots should be taped or the wires replaced. Next examine the brushes on the magneto. Any that are worn on the ends should be smoothed off or replaced so that a good electrical contact is obtained. See that the breaker points are smooth enough to meet squarely and in adjustment—that is, the gap between them, when they are separated, should be between one-thirty-second and one-sixty-fourth of an inch. Also note whether the insulation in the breaker box is in good condition and whether there is any possibility of a short circuit either due to this or dirt or oil. Take the switch magnet and examine the insulation and tighten any loose parts. Providing all electrical connections are tight and the gaps of spark plugs adjusted to one-thirty-second of an inch, the trouble must be either in the carburetion system or in the coil or magneto.

Assuming that the carburetor adjustment is correct, see that there are no air leaks in the intake manifold. Look for dirt in the gasoline system and see that the float is not sealed with gasoline and that the needle valve and float valve or their seats are not worn.

While you may drive with the spark lever properly adjusted and the magneto may be correctly timed, it is possible that the linkage connecting the spark lever with the magneto is loose, so that when the lever is advanced the breaker box is not acted upon.

See that the lubrication system is in proper working order and check up the valve timing.

#### What is the cause of carbon?

Carbon deposit is caused by the carbon in the oil or gasoline being set free by the heat of combustion. If the mixture is too rich there will not be enough air for combustion of all the carbon in the gasoline, and therefore after the explosion takes place some carbon in the form of a very fine powder will remain. This is caught by the oil on the walls of the combustion chamber, and the heat gums the oil, holding the carbon until the final result is a hard mass of carbon held together by a tough, cement-like gummed oil. In the same way, if too much oil is fed to the motor, an excess reaches the combustion chamber, and the heat burns part of it, but leaves some of the carbon, which remains on the wall until removed.

## NEWS OF SOCIETY AND WOMEN'S CLUBS

#### Mrs. Shipp Hostess.

The Herron Homemaking Circle met Wednesday afternoon at the home of Mrs. N. O. Shipp, living northwest of the city. The afternoon was spent in quilt piecing and in planning for the annual Fourth of July celebration which will be held this year at the home of Mr. and Mrs. J. C. F. Taylor. A dainty luncheon of pineapple ice and cakes followed the working hour. Those present were Mrs. R. Neidel, Mrs. S. E. Fisher, Mrs. J. C. Taylor, Mrs. Chance Evans, Mrs. Ed Valgammott, Mrs. Porter, Mrs. I. E. Tebow, Mrs. A. E. Cockayne, Mrs. Virgil Guthrie, Miss Esther Neidel, Miss Nellie Fisher. Special guests of the afternoon were Mrs. Fred Miller and Miss Mae and Helen Shipp.

#### SUED FOR \$450 ON ACCOUNT.

Maryville Advertising Company Didn't Pay for Folding Machine, Dealer Charges.

Suit for \$450 and interest from last September was filed in circuit court here today by Barnhart Brothers & Spindler of Kansas City against W. H. Gilbert of the Maryville Advertising company. The plaintiff says Gilbert bought a folding machine from the firm last August at \$450, but has never paid anything.

Italy has completed twenty new submarines since the war broke out, and has added greatly to her aeroplanes and dirigibles.

In Mexico there is a 150-foot bridge that is composed entirely of mahogany, worth, at the present price of the wood, almost \$2,000,000.

Ceylon has taken a census of her coconut trees and finds she has 60,000,000.

In the Philippines motion pictures are being used to teach hygiene.

Argentina has a new paving material made of ground rock and tar.

#### VIC MURDOCK SPEAKS HERE

Red-Headed Bull Moose Senator of Kansas on Chautauqua Program For August 8.

The Hon. Victor Murdock has been styled "The Kansas cyclone." It should not be taken from this that he is a destructive cyclone, however, but he has the uplifting qualities of these untamed forces of the prairie. The truth is that Victor Murdock is a constructive

five statesman and has always been in the vanguard of progress, and the people of Kansas always like that kind of a man. He has been in congress long enough to make of himself a national character and has recently been appointed to the foremost position in the Progressive party.

He is coming to Chautauqua to give the people the results of his long and careful observations in public service. His address will not be of a partisan or political character, of course, but it will be of public interest and of strong educational value as well as of fine entertainment qualities. Murdock always makes good. He is a big, prominent man of affairs and has a right to appear on the best public platforms the country affords.

#### To Visit at Pickering.

Mrs. Al Royston went to Pickering at noon to spend a few days visiting her sister, Mrs. John Young.

#### The Guest of Miss Aley.

Miss Lela Nusbaum of Bern, Kan., arrived in the city today to visit Miss Verna Aley.

#### Visiting at Mound City.

Mrs. M. C. Gwinn, living near Bedison, is visiting at Mound City, the guest of her sister, Mrs. Alf Myers.

The United States yearly pays \$172,000,000 in pensions to old soldiers.

Oil wells of the United States now in operation number almost 150,000.

## Sunday Services at Local Churches

#### Buchanan Street Methodist.

John H. Hubbard, pastor. We hope to have a large attendance tomorrow at all our services. All at Sunday school on time is our motto.

The regular preaching service at 11 o'clock a. m. and 8 o'clock p. m.

Epworth League at 7 o'clock p. m. Special music at all services.

Everyone cordially invited to attend all services.

#### First Church of Christ, Scientist.

206 South Main.

Morning worship at 11 o'clock. Subject of lesson sermon, "Christian Science." No Sunday night service.

Midweek prayer service at 8 o'clock Wednesday night.

Reading room in Michan building open each afternoon from 2 till 5 o'clock. Everyone welcome to the services and the use of the reading room.

#### First Methodist.

Gilbert S. Cox, pastor.

Sunday school at 9:30 o'clock.

Morning worship at 10:45 o'clock, with sermon by pastor. Subject, "The Hills of God." Choir anthem, "The Radiant Morn," by Woodward. Solo, "The Hills of God."

Evening worship at 8 o'clock. Subject of pastor's sermon, "The Restoration of Peace." Choir anthem, "Jesus, Meek and Gentle." Quartet, "God Calling Yet," Brockett.

#### First Presbyterian.

Samuel D. Harkness, pastor.

Sunday school at 9:45 o'clock.

Morning worship at 11 o'clock with sermon by Dr. W. S. Holt of Philadelphia, associate secretary of the board of ministerial relief.

Evening worship at 8 o'clock with sermon by pastor. Subject, "The International Christ."

Meeting of Young People's club at 7 o'clock. The hour will be a missionary meeting on the subject "China," and it will be led by Martin Lewis, Jr. Miss Lillian Lindholm will sing at both the morning and evening service.

#### First Christian.

Robert L. Finch, minister.

Morning worship begins at 9:30 with the church in religious training and Bible study. Ennis R. Utter, superintendent, will be in charge. After communion at 10:45 the minister will preach on the subject "The Fire Test." Special music by the choir under direction of Prof. Harry Burnell Schuler, with Miss Ola Smith at the organ. Let us make this service splendid by the earnest and enthusiastic co-operation of all.

Evening sermon subject, "A Catholic Baptism," the last of the series on "Elements of the Holy Catholic Church." An earnest invitation is extended to all students of the trend of modern church life to hear this sermon. Service begins promptly at 8 p. m.

#### Guests at Martin Home.

Mrs. B. C. Huffine of Des Moines, Ia., will arrive in Maryville tonight to visit her mother, Mrs. M. A. Martin. Another daughter, Mrs. C. Edward Lippman of St. Louis, and her two young children, will come to Maryville the first of next week for a visit at the Martin home.

#### Know the Trouble.

The aim of the thoughtful physician—one who endeavors to find every possible help in the treatment of the sick—is to make sure he KNOWS THE TROUBLE and then to use the treatment to overcome it.

A proper and positive diagnosis is the principal thing for a physician to know. He must not grope in the dark, if he expects to succeed in his efforts.

Dr. Prettyman, the specialist in Chronic and Nervous Diseases, claims you can consult Dr. Prettyman at that his experience is such that he can find out the exact trouble and knowing the Linnville hotel, Monday, June 28, that, can tell what can be done.

#### Guests at Farrar Home.

Mrs. W. B. Carter and son, Harlan, came to Maryville yesterday from Lawrence, Kan., to visit Mrs. Carter's mother, Mrs. M. E. Farrar, and family.

Empire Theatre, WEDNESDAY, 30 JUNE...

## "MARRYING JANE"

## SOCIETY AND CLUBLAND

KATE SCHENCK  
Phone—Office 42 Home 588

### Plenic Supper.

A plenic supper given last night at Normal park included in its party Miss Marjorie Willey, Miss Lucile Airy and her guest, Miss Lillian Lindholm of Ottawa, Ill.; Miss Dale Hoffman and Miss Glen Hotchkiss.

### Guests at Baker Home.

The Rev. and Mrs. Gilbert S. Cox and the former's brother, Mr. Ernest L. Cox of Kansas City, who is their guest a few days, were entertained at a supper given last night by Mr. and Mrs. George B. Baker.

### Entertains Homemakers.

Mrs. Frank Mathis entertained the members of the Homemakers class with a Kensington and luncheon yesterday afternoon at her home, on North Walnut street. Mrs. A. E. Pastorius delighted the guests with several voice numbers. Twenty-five were entertained.

### Mrs. Glenn to Visit Here.

Mrs. J. C. Glenn of Kansas City arrived in Maryville at noon to visit her daughter, Mrs. A. Frederick Harvey, and Mr. Harvey, at their home, 704 North Main street. Mrs. Glenn is a former resident of this city and enjoys the acquaintance of a wide circle of friends here.

### On Western Tour.

Mrs. Fred P. Robinson and daughter, Virginia, will depart tomorrow morning on a six weeks western trip. The most of their visit will be made at Los Angeles, Cal., with Mrs. Robinson's sister, Mrs. Fletcher Irwin, and Mr. Irwin. They will stop at various places of interest both going and returning. Mrs. Robinson will also attend the international convention of Christian churches, which will meet at Los Angeles during the latter part of July.

### Maryville Girls Sightseeing.

Miss Donna Sisson and Miss Lulu Todd of this city, who are at present sight seeing in New York City, had the pleasure of witnessing the launching of the superdreadnaught, Arizona, from the ways at the New York navy yards Saturday, June 19. The ceremony which was attended by thousands of persons was of unusual interest to the Maryville girls as it

was the first experience of the kind for them. A feature of the christening of the battle ship, which was sponsored by Miss Esther Ross of Prescott, Ariz., was that both wine and water were used. In accordance with the traditions of the navy, a bottle of wine was smashed on the bows of the ship and at the same time a carboy of water, the first that spilled over the famous Roosevelt dam, was dashed over the sides of the vessel.

### Sorority to Plenic.

The members of the Sigma Delta Chi sorority will enjoy a motor party and plenic supper at Elm Grove, northwest of the city, tonight. Eighteen members will be in the party.

### Motor Party to Rock Port.

Mr. and Mrs. Edward Dowling Holmes and their guests, Misses Harriett and Winona Howard of Lucerne, Mo., and Mr. J. Colton of Kansas City, will motor to Rock Port tomorrow, where they will spend the day visiting friends.

### Camp Fire Supper.

Miss Nelle Hudson, Miss Mabel Todd, Harvey McClary, James Todd and Roy J. Curfman will drive to Bolckow tonight in the Curfman car to attend a camp fire supper given by Misses Myrtle and Gertrude Floyd. The entire party will include about twenty guests.

### Mrs. Garrett Entertains Society.

The June meeting of the Women's Home Missionary society of the First Methodist church was held yesterday afternoon at the home of Mrs. Oliver Garrett. A business meeting preceded the program. At this time the reports for the past year's work were given and officers for the coming year chosen. The offices of president and vice president were left vacant until the July meeting. The others chosen were Miss Mary Q. Evans, recording secretary; Mrs. L. L. Maler, corresponding secretary; Miss Ethel Embree, treasurer, and Mrs. Guy Haller, secretary of supplies. A gift of over \$200 was made this past year by the society to the general home mission work. The program of yesterday included a review of the text book study, "In Red Man's Land," given by Miss Mary Q. Evans, and a reading, "The Old and the New," given by Mrs. Lester Bennett. The afternoon closed with the serving of delicious refreshments by Mrs. Garrett. The July meeting will be held with Mrs. G. W. Nall as hostess.

### TO HOLD ANNUAL CHAUTAUQUA.

Pickering Will Enjoy a Week of Entertainment from July 24 to 29. The annual summer Chautauqua at Pickering will be held this year the last week in July, from July 24 to 29 inclusive. The course will be given by the Jones Chautauqua system, and some splendid entertainment will be provided.

Among the speakers for the week are Thomas P. Byrnes, Rev. George E. Ferguson, Dr. Charles F. Sheldon. The Versatile Entertainers will give a program, and a recital of songs and readings will be given by Earl C. Van Dusen. Other entertainers will be Rose Bush and company, Pearl Jane Dougherty, Beatrice Parkhill and the Howard Male Quartet.

### Glad to Entertain Them.

The people of Maryville and Nodaway county are invited to Burlington Junction Saturday, July 3, where the business men and citizens will be glad to entertain them. Speaking by Hon. Merrill E. Otis. Music by Fourth Regiment band. Base ball, Hopkins vs. Burlington Junction. Athletic contests. Free attractions and carnival at night. Sure enough ice water and shade. Good place for your teams and automobiles. Make this one of your positive engagements for the Burlington Junction folks will be glad to see you and entertain you free.—Adv.

### To Hold A. M. E. Conference Here.

The negro district Methodist Conference for 1916 will be held at the A. M. E. church in this city June 20, next. The meeting will bring a large number of Methodist ministers and workers to Maryville.

Clarence Baker, an official in the church of Maryville received word of the meeting place today.

### To Attend Funeral.

Mr. and Mrs. Charles Florea, Mr. and Mrs. Everett Florea and Mr. and Mrs. Charles Killam, east of Pickering, were called to Maryville last night on account of the illness and death of Joseph Weaver at St. Francis hospital last night.

### Arrives from Edina.

Mrs. Cora S. Fowler of Edina, Mo., arrived in Maryville yesterday for a visit with her mother, Mrs. Callista Dawson, and her brother and sister, Attorney John Dawson and Miss Eva Dawson.

### CHICHESTER'S PILLS

Endless Ask your Druggist for Chichester's Diamond Brand Pills in Red and Gold seal. Take no other. Box of your Druggist. Ask for CHICHESTER'S PILLS. Sold by Druggists Everywhere.

# PAIGE

The Standard of Value and Quality

## Why The Paige Has Swept The Country

IN THE SATURDAY EVENING POST of January 3rd, we first introduced the Paige "Six-46" to the American public. In that advertisement we said:

"It is our conviction that history has repeated itself and the Paige Company has again set the standard of value in the moderate priced field.

"Henceforth, 'Six' prices and 'Six' values will be judged from a viewpoint of Paige achievement."

This was the prediction that we made when we introduced the Paige "Six-46."

This was the statement which, we believe, has been absolutely realized in six short months.

The success of this remarkable car has far exceeded every expectation that we had for it.

We knew that we were building right.

We knew that no better material or sounder principles of construction could go into any car at any price.

We knew that—feature for feature—this car marked a distinct epoch in automobile manufacturing.

But, with all of our confidence, we could not foresee the tidal wave of demand which has been created in such an amazingly short time.

From every section of the country—from the large cities, small towns and farm districts—there comes a constantly increasing demand upon the factory for "More Sixes—More Paiges."

Dealers have doubled, trebled and quadrupled their allotments in order to keep pace with their orders.

Every night finds the Paige factory working on double shifts—every day finds our shipping platforms taxed to their utmost capacity with more "Sixes" bound for every section of the nation.

In the very middle of our production season it has been necessary to consider plans for increasing the present huge factory.

Now, these plans are under way. Ground will be broken immediately, and equipment installed to double the capacity of the Paige plant and produce 150 cars per day.

These are merely a few sidelights on the success of this great Paige "Six-46." If you would know why this car has attained such immediate recognition, we ask you to consider the following facts.

## The Paige Marks a New Era

Up to the present time, motor car competition has been confined within three distinct "price classes"—represented by low, medium and high-priced automobiles.

All cars have been judged in comparison with other cars of the same "price class." Manufacturers have been quite content to maintain consistent prominence in their various "price" divisions, and the Public has learned to estimate automobile values by this method of class comparison.

But one, epoch making development has been on the way. One car—three years in the making—has appeared upon the horizon.

And, in less than six months, this car—the Paige "Six-46"—has completely shattered all the standards of "Price Class" and established itself in an absolute unique and individual position.

Because the "Six-46" is a full HUNDRED POINT motor car, we contend that—IRRESPECTIVE OF PRICE—this car offers as much essential value as any automobile made in this or any other country.

Because this car embodies—in full measure—all that a man could desire in ANY car, we affirm that it fixes, at \$1395, the topmost price that you should pay for the utmost in motoring.

In appearance the Paige "Six-46" is not only the most beautiful car, but the most distinctive and individual-looking car offered in the American market this year.

Its long, sweeping stream-lines are adapted from the very latest European designs.

Without being in the least bit "freakish," the Paige Six, is "smart" in every detail.

Its character is unmistakable. Wherever you see a Paige Six, on the city street, on the country road or parked at the curb, you recognize it instantly.

A distinctive feature of Paige design is the astonishing combination of beauty with unsurpassed comfort. While a light Six, it is a big Six.

It is designed to seat its seven adult passengers with ample room and luxurious motoring comfort for each and every one of them.

No motor car—not excepting the most expensive cars made in this country or abroad—can offer more motoring luxury than the Paige Six offers. In all essential details it has reached the highest achievement of motor car design and manufacture.

And withal, Paige Design has achieved Paige Economy. The "Six-46" is an economical car. That means more than the low price—\$1395. It means low tire bills, low gasoline bills, low repair bills and small depreciation.

The tremendous power and extraordinary flexibility of the motor in this record-breaking "Six-46" have been a potent factor in its nation-wide success.

Without shifting from high gear the "Six-46" throttles down to a slow walking pace and then "picks up" immediately to the speed of the wind. It is virtually throttle-controlled.

Paige cars have always been noted for their ease of control. Smooth gears—quick acting brakes—and a responsive steering wheel enable a woman to drive this car as readily as an electric. This means not only motoring-luxury, but the vital factor of safety.

## Check Up The Field

Point for point—feature for feature—the "Six-46" offers in essential value all that you can find in any car—regardless of price.

There is nothing better than the best. You can only hope to get out of a motor car precisely what the manufacturer puts into it.

Nowhere can you lay your finger on one single weakness—one single compromise—in the construction or equipment of this amazing motor car.

No matter how much you may be prepared to pay, you can't buy a better combination of motor car essentials than you will find in the Paige "Six-46."

If this car sold for \$5000 we couldn't employ better principles of construction than we deliver for \$1395.

Furthermore, the most discriminating motor car buyers in the country have recognized this fact. Men and women who can readily afford to buy any car have selected the Paige—not because of its price, but because of its QUALITY.

They have selected the Paige because it is a FULL HUNDRED POINT motor car.

"The year-ahead car"—that is what they are calling the "Six-46" But—as a matter of fact—this slogan is quite inadequate.

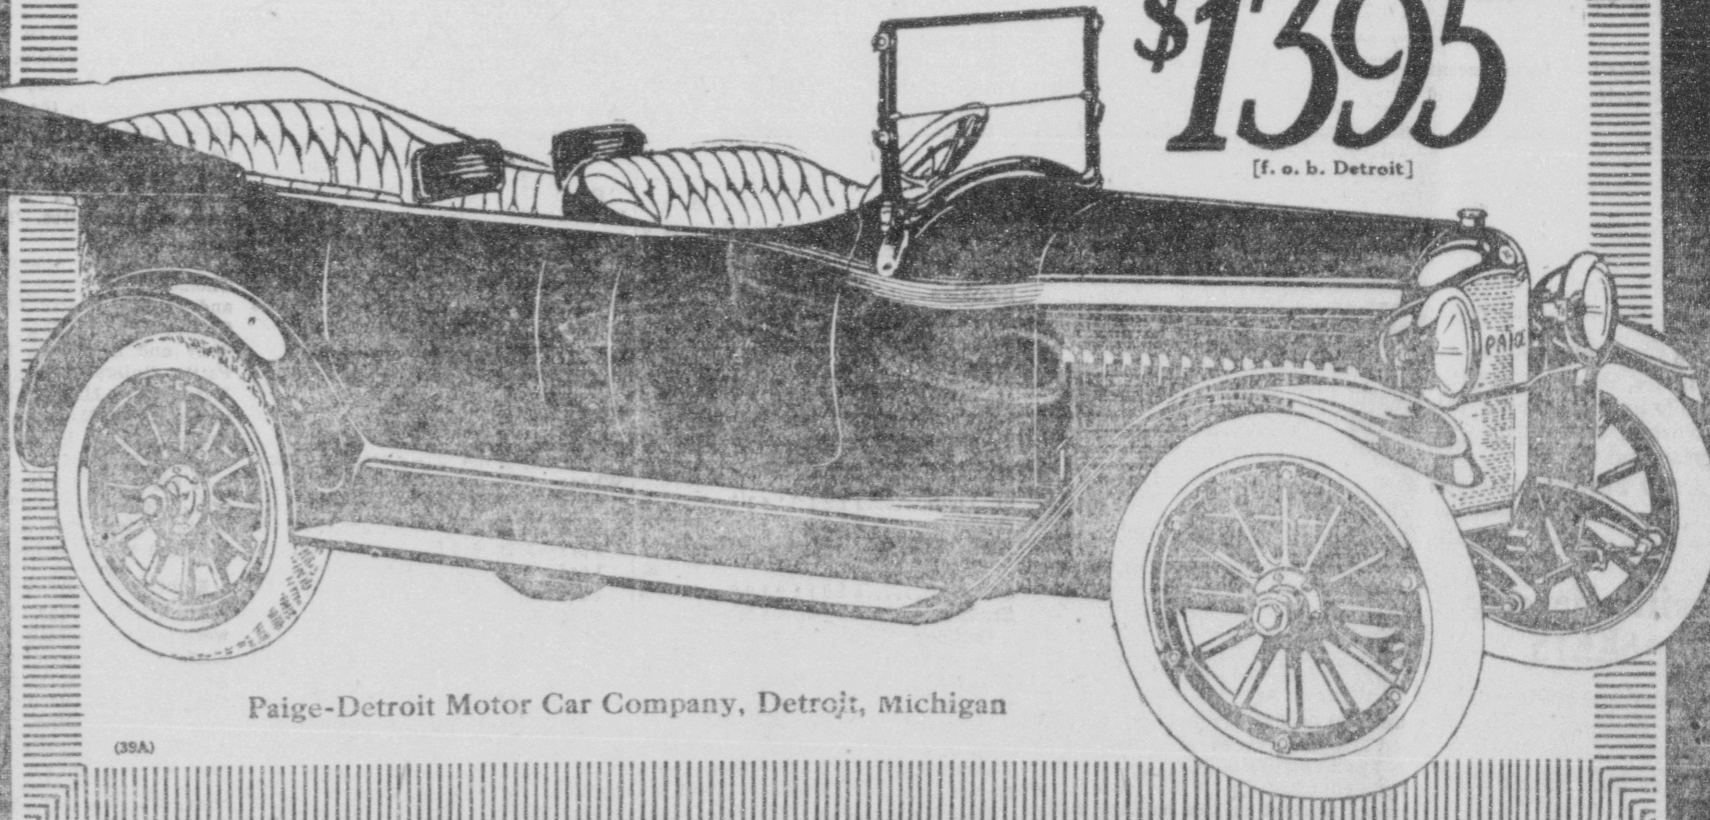

The Paige has, indeed, created an entirely new Era. In appearance alone it has set the vogue for 1916 design, and will, undoubtedly, be the most widely copied car at next year's automobile shows.

The Paige "Six-46" is a tried and proven success. Once again, Paige has "shown the way".

## Deafness

Are You Deaf or Hard of Hearing?

Now is the ideal time to treat deafness. Ninety per cent of all deafness is caused by catarrh. Dr. Edwards of St. Louis has discovered and perfected an operation for catarrhal deafness which is remarkable for its many cures. There is no cutting and it is painless. I am now using this operation in Maryville with remarkable success. Every patient treated by me has been cured or greatly benefited.

## RAINS DESTROY INSECT PESTS

University Expert Says Damp Weather Helps Kill Noxious Bugs.

That the recent rains in Missouri have helped greatly to keep down the insect pests is the opinion of Dr. Leonard Haseman, assistant professor of entomology at the University of Missouri. Doctor Haseman says the

young insects and the eggs, and brings in other diseases which aid in destroying the pests.

The greatest benefit derived from the rains, however, was that the crops were strengthened to such an extent that the insects were not able to harm them very much.

"The chinch bug is still present in large numbers," says Doctor Haseman, "but the crops are maturing in

spite of them. The present brood will get wings sometime in July and then will come a second brood. Those in the wheat have already begun to migrate to the corn. The danger from the army worm is practically over. If they do come it will be in only a few communities."

Doctor Haseman says that the army worm comes in large numbers only every other year. He says that last

year was the worst for the army worm for a long time. Other very destructive invasions were made by this pest in 1861 and in 1875.

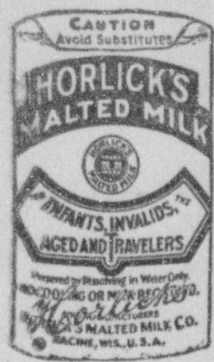

## Black Wonders to Play.

The Black Wonders, a negro team of Maryville, will play the Conception Junction base ball team at Conception Junction tomorrow afternoon. The Maryville players also will take several musicians along.

After being in service since 1840 the sandstone steps leading to the east entrance to the capitol building are to be replaced with marble at a cost of \$1,000.

Cuba's asphalt deposits, when developed, are expected to prove superior to all others throughout the world.

The United States in 1913 produced 231,757 tons of explosives.

## WILSON BEGINS TO ENJOY VACATION

President Seifles Down at Summer Capital For a Rest.

IS GIVEN A HEARTY GREETING.

Throngs Welcome Executive at Every Station Along Route—Secretary Lansing Will Do Most of Work on Note to Great Britain.

Cornish, N. H., June 26.—Under orders from his physician to take a complete rest, President Wilson settled down at the "summer White House" for a brief vacation to prepare himself for the arduous work he is expecting within the next few months in connection with the European and Mexican situations.

The president brought few official documents with him and officials at the White House had orders to forward him only the most pressing business, but nevertheless he plans to give much thought in the quiet seclusion of the Cornish hills to the next step in the Mexican question, to the submarine issue with Germany and to the discussion with Great Britain over commerce.

Secretary Lansing will do most of the actual work on the note to Great Britain, now being prepared, but the president has already gone over with him the broad questions of policy involved, and will see the note before it is officially forwarded to London. He read with deep interest unofficial forecasts from Berlin that there was a possibility that Germany's submarine warfare would be somewhat modified but refused to comment.

The president arrived here after a trip through Connecticut, Massachusetts and Vermont marked by frequent ovations from crowds which gathered at every station. He refused to make any speeches, but smiled broadly at laudatory comments from several hundred men, women and children with whom he shook hands.

### DUN'S REVIEW OF TRADE

Cross Currents Continue in Business Channels.

New York, June 26.—Dun's says: Cross currents continue in business channels, but the tide of returning prosperity is gradually rising. Further progress is manifest, notwithstanding unseasonable weather, and especially in the west. This retards retail trade and tends to adversely affect the jobbers as well, while the agricultural outlook has been somewhat impaired by excessive rains. Harvesting of winter wheat is delayed and corn has received a set back, yet crop failures from too much moisture are comparatively rare, the other extreme having furnished the great records of less. The depressing influences are less keenly felt because they are believed to be temporary, and confidence in the future remains unshaken. No serious labor controversies threaten and the growing shortage of skilled workmen is about the only cloud in the industrial sky.

### Becker Renews Fight.

New York, June 26.—Counsel for Charles Becker considered the advisability of an appeal to the United States supreme court to save Becker from execution in the week of July 12 for the murder of Herman Rosenthal. It was reported that either a writ of error or a habeas corpus might be requested on the ground of newly discovered evidence. Either writ would automatically stay Becker's execution.

### Deputies Vote Over Billions.

Paris, June 26.—The bill appropriating 5,600,000 francs (\$1,120,000,000) to cover government expenses for the three months beginning July 1, was passed almost unanimously in the chamber of deputies, the vote being 492 to 1.

### GRAIN AND PROVISIONS

Closing Quotations on the Chicago Board of Trade.

Chicago, June 26.—Closing prices: Wheat—July, \$1.04½; Sept., \$1.02½. Corn—July, 73½; Sept., 73c. Oats—July, 44c; Sept., 38½c. Pork—July, \$16.75; Sept., \$17.17½. Lard—July, \$9.30; Sept., \$9.57½. Ribs—July, \$10.35; Sept., \$10.65. Chicago Cash Prices—No. 2 hard wheat, \$1.20; No. 2 yellow corn, 74½¢; No. 3 white oats, 47½¢; 48½¢.

### Chicago Live Stock.

Chicago, June 26.—Cattle—Receipts, 1,000; steady; native beef steers, \$6.75 @ \$9.50; westerns, \$7.25 @ \$8.25; heifers, \$3.25 @ \$9.40; calves, \$7.10 @ \$7.85; light, \$7.60 @ \$7.95; heavy, \$7.20 @ \$7.80; rough, \$7.25 @ \$7.35; pigs, \$6 @ \$7.55. Sheep—Receipts, 10,000; firm; sheep, \$5.50 @ \$6.40; lambs, \$6.75 @ \$9.25; springs, \$7 @ \$10.40.

### South Omaha Live Stock.

South Omaha, June 26.—Cattle—Receipts, 350; steady; beef steers, \$7.25 @ \$9.35; cows and heifers, \$4.70 @ \$8.25; stockers and feeders, \$5.60 @ \$8.20; bulls, \$5.35 @ \$7.25; calves, \$5 @ \$10. Hogs—Receipts, 7,400; 5c higher; bulk of sales, \$7.35 @ \$7.45; top, \$7.50. Sheep—Receipts, 9,400; 10¢ @ 15¢ higher; lambs, \$7 @ \$8.50; springs, \$9 @ \$9.90; wethers, \$5 @ \$6.25; ewes, \$4 @ \$5.35.

## EVELYN NESBIT THAW.

Wife of Famous Prisoner  
And Her Son; She May  
Testify at Present Trial.

Photo by American Press Association.

## FIVE MORE TESTIFY THAT THAW IS SANE

State's Attorney Will Bare Life History of Harry and Evelyn.

New York, June 26.—Interest in the proceedings to ascertain whether Harry K. Thaw is now sane or insane was divided between the taking of evidence in court here and the application by counsel for the state for the appointment of a commission to learn from Dr. Charles W. Eliot, president emeritus of Harvard, why Thaw left that institution in 1892 without completing his course.

Deputy Attorney General Cook, in outlining the state's case to newspaper men, said in addition to tracing of the life of Thaw the state would also bring to light the life history of Evelyn Nesbit.

Dr. Noel E. Giffert of Manchester, N. H.; Walter M. Lang, a real estate agent of that city; Mrs. Lang, Eugene P. Nyte, Thaw's federal custodian in New Hampshire, and Major Robert P. Johnson, who said he met Thaw at various social occasions, testified as to their entire belief in Thaw's sanity.

### CONFESSES 13 MURDERS

One Victim of Negro Hanged in Alabama Was a Nebraska Deputy Sheriff. Birmingham, Ala., June 26.—Syd Jones, hanged in the county jail yard here, left a note in his cell in which he confessed thirteen murders. Two of his victims, a Mobile and Ohio brakeman and a Nebraska deputy sheriff, were whites. The others were negroes.

Jones named among his victims Thomas Thompson, Charles Bennett and Deputy Sheriff W. S. Mosley of Crawford, Neb.; Shay White, Thomas Shay and Sam Lee, Monterey, Cal.; Pattie Quiero, a Mexican at Fort Wingate, N. M., and John Littlejohn, an Indian at Sheridan, Wyo. The unnamed railroad brakeman, he said, he killed at Boyd, Ky.

"I am sorry I missed getting Richard Moore, Sept. 12, 1912," Jones wrote. "Just one more would have made an even number."

Eight Men Burned by Explosion. Pittsburgh, June 26.—Eight men were probably fatally burned in an explosion of gasoline at the works of the Aetna Explosives company in this city. The explosion occurred in a corrugated iron building and the men escaped by jumping from windows, with their clothing ablaze.

Terre Haute Men Finish Their Terms. Indianapolis, June 26.—Thirty-one Terre Haute prison fraud conspirators were released from jail here at the expiration of their sentences of six to six years each. Costs amounting to \$91.58 each, a share in the expenses of the trial, were paid, in addition to fines of \$1 each.

Huerta on Way to Exposition. Chicago, June 26.—General Victoriano Huerta, former dictator of Mexico, slipped quietly into Chicago. He was accompanied by his son and a secretary and said he was on his way to the exposition at San Francisco "to relax my nerves after trying experiences."

## MOTOR TOURING INCREASES.

Statistics Show Tremendous Growth in Automobile Trips—Roads Being Improved.

America is already feeling the effect of an enormous increase in automobile touring over previous years. The figures up to June 1 have reached a volume without precedent in any previous year's records. This information comes from the national clearing house for automobile touring, the American Automobile association, with headquarters in Washington, D. C.

Just as straws show the direction of the wind, so do many of the unusual requests for touring routes demonstrate there are many new incentives that are bringing about this increased travel.

One of these that has become rather prominent within the last week because of the time of the year, has been the number of requests for route information between the east and west on the part of those who have planned to make the trip with sons and daughters who are attending the various preparatory schools and colleges in the east.

Heretofore the home-going of students has been by train, but this year the spirit of touring has so increased that it has brought about a desire and fulfillment to make the trip by automobile.

Another point showing the increasing interest in more general touring are the requests for data through sections that have formerly had but little attention. Many of these inquiries come from those who previously confined their summer touring to the northeast section of the country, but are now looking for variants that they may become equally familiar with other sections famed in colonial and subsequent history. Some of this area is today travelable, but even after the roads have become settled, during the summer, there remain, many miles which must be put in better condition before touring can become a really definite proposition. Much road building has been done, and it must be said for the various authorities that a great deal more is now planned and will be carried out this year.

One of these embraces a circuit in Virginia that will take in most of the renowned battle fields of the civil war that heretofore were practically isolated from the tourist.

America's population has merely doubled within the last thirty years, the number of wage earners has increased 300 per cent. In 1880 the value of our manufactured products was \$5,000,000,000, as against \$20,000,000,000 in 1910, while the capital invested increased from \$2,000,000,000 in 1870 to \$10,000,000,000 in 1910, or 500 per cent.

Government estimates that in addition to the loss of \$200,000,000 in the cereal crops caused by insects, the loss on vegetables is \$53,000,000, on fruit \$27,000,000, and on other crops enough more to bring the total loss up to \$350,000,000, all in one year.

Ireland has an electric railroad for which cars have been designed to be run by gasoline-electric generators which they carry or by the overhead trolley system.
